The Ifor Williams trailer range has been designed with you and your horse in mind. Combining the much loved qualities of the Ifor Williams range with continuous design improvements ensures that you are towing the safest and strongest horsebox trailer we have ever built. Trailer exteriors have a striking overall appearance which complements the towing vehicle. However, the beauty of our horsebox is not just skin deep, the comfort and safety of your horse has always been our main consideration in the design of our horsebox range.

Our trailers have undergone rigorous testing not only within our own test facilities, but also at independent test tracks. There are three models in the range; one single and two double. All trailers are available with an offload front ramp and a grooms' door fitted as standard.

HB506 and HB511 Double Horsebox Models – Both models are suitable for two horses. The HB506 can accommodate two horses up to 16.2hh; the HB511 is slightly longer, wider and will carry two 17.2hh horses. Both models feature a pair of side windows, and have a large inspection window which allows more daylight into the trailer. Centre partitions and breast and breeching bars are fitted as standard.

HB403 Single Horsebox – As a single horsebox, the HB403 provides more stall width than our double horsebox models and offers enough headroom to take one 16.2hh horse.

Being a narrower trailer, the HB403 is easier to tow and produces less wind resistance when towing. The HB403 is ideal for transporting nervous horses that require a wider stall and may prefer to travel alone.

HB403 with right offload ramp in Bala Blue

Whether you are a livery yard, trekking centre, riding school or private individual with a string of ponies, this trailer, with a maximum gross weight of 3500kg, makes an ideal workhorse.

HB510XL

The HB510XL offers the flexibility of carrying two horses up to 17.2hh or up to four ponies. The HB510XL comes with headroom of 2.3m and a locking groom's door as standard. With its 14' internal length the HB510XL offers either a range of telescopic partitions, suitable for ponies*, or a single centre partition allowing two horses to face forward.

HB610

The HB610 represents our largest trailer and can carry two large horses up to 17.2hh with room to spare or up to five ponies. The HB610 has headroom of 2.3m and a locking groom's door fitted as standard. As with the HB510XL, the HB610 has a maximum gross weight of 3500kg. However, by offering additional trailer width, the telescopic partition system allows up to five pony stalls.*

The wide front unload ramp, which comes as standard, makes this model unique and very useful for both horse and owner. † An additional benefit is the extra storage space available in the wind deflector, accessible from inside the trailer.

The sliding windows and roof vents provide a comfortable and safe environment for your horse, ensuring plenty of light and fresh air. Additional comfort is provided through thick rubber floor matting.

*Animals must not be carried adjacent to the groom's door under any circumstances. Please refer to the partition layouts for guidance.

†The HB610 front ramp provides headroom of 1.9m (74") and may not be suitable for front unloading of horses over 16.2hh.

EVENTA

Your Ifor Williams Horsebox can now be a home from home for you as well as your horse.

The Eventa range of horseboxes includes fitted living accommodation options. We have built on our 50 years of experience producing the UK's best trailers to produce this exciting range.

The Eventa comes in two sizes. The Eventa M is suitable for 2 horses whilst the Eventa L is suitable for 2/3 horses/ponies dependant on weight. Moving away from traditional trailers the partitions for the horses are at a herringbone angle – widely used on horsebox lorries.

The standard furniture in the Medium Eventa comprises of seating for three, sleeping for two, dining table, sink unit, drawer unit (with hob and grill fitted on Gold) and cupboard with some hanging space.

P6e Livestock with 20.5 x 8-10 tyres (750Kg)

P6e & P7e

Our P6e & P7e offer small unbraked trailers with outstanding flexibility both on and off road. The livestock versions include aluminium ramp gates, ventilation louvres in the front of the canopy and fixing points for the optional cross division.

P6g & P8g

These two models, the lightest in our braked Livestock range, are designed for those who need a light yet robust means of transporting small types of livestock. Easy to tow, reverse and manoeuvre, the trailers will meet the needs of the most serious farming professionals.

With a maximum gross weight of 1400kg, they can be towed by most large family cars. They provide a payload of 1010kg for the 6' version and 960kg for the 8' version. Both models offer 4' and 5' headroom with a width of 4'.

TA5 4'

The TA5 4' headroom models are slightly wider than the P6 and P8 at 5', and feature wider side vents with flaps giving increased ventilation. With the low headroom and increased floor space, the wind resistance is minimised when towing, a bonus when travelling long distances. The twin axles provide a maximum gross weight of 2700kg. The TA5 4' headroom model is available in 8', 10', 12', and 14' body lengths.

P6 (1400Kg)

TA5 10' (4' headroom)

DP120 (EasyLoad™) with optional ramp side gate extensions

TA5 6' AND 7' H/R

The TA5 range with 6' or 7' headroom is a substantial but narrow trailer, ideal for navigating rural tracks and lanes. The TA5 is available in 8', 10', 12' and 14' body lengths. The 8' and 10' versions have a maximum gross weight of 2700kg while the 12' and 14' heavy duty versions offer 3500kg maximum gross weight.

TA510

The TA510 offers an internal width of 5'10" and is a very popular and widely used means for moving livestock around the roads of Britain and Europe.

Body lengths of 10', 12' and 14' are available, with height options of 6' and 7'. The 14' is also available in 4' headroom. The 7' versions, with optional centre partition fitted, allow 2 16.2hh horses to be transported*. All trailers have a maximum gross weight of 3500kg; payload varies between 2010kg and 2550kg depending on size and specification.

DP120 DUAL PURPOSE TRAILERS

The DP120 range combines a substantial maximum volume and gross weight (3500kg) with the option of a removable container. When the container is removed, the DP120 can be used as a conventional flatbed trailer. Body lengths of 10', 12' and 14' are available, all with standard headroom of 6'. A tri-axle is an option on the 12' model and comes as standard on the 14' version.

RAMP OPTIONS

All three models are available with either the standard ramp or with the award winning EasyLoad™ ramp and folding deck system, designed to enable the handler to load two decks of sheep without having to handle large weights. TA5 and TA510 models are also offered with combination ramp doors allowing forklift loading of bulk feed etc.

*Subject always to the Welfare of Animals (Transport) England Order 2006.

TA5 (6' headroom) with optional ramp side gate extensions

TA510 12' (6' headroom) with optional ramp side gate extensions

GD85 single axle

Our General Duty trailers are at home in almost any environment, with virtually any type of load, from building materials to expedition equipment.

The trailers are built around a welded steel, galvanised chassis with fixed front and side panels. These panels are constructed from galvanised steel and are supported by galvanised steel channel sections.

The General Duty range is offered in width options from 4' to 5'9" (internal width), and length options from 6' to 12'. All models are offered with either a tailboard or rear ramp with assistor.

A number of axle options are available giving a maximum gross weight range from 1400kg to 2700kg.

Mesh sides are available for most models, providing the capability to carry bulky loads such as hedge cuttings and waste packaging.

GD105 with ramp

GD105 with mesh sides and ramp

LM126 with optional dropsides, tailboard and headboard.

LM126

From the smallest LT85 to the largest LM208, all Flatbed models are built around a welded steel, galvanized chassis fitted with bolt-on tapered drawbars and the Ifor Williams beam axle and leaf sprung suspension.

The Flatbed trailer range is normally supplied with twin axles. Tri-axle options are available on our LM6 series models in lengths over 10'.

Eurolight trailers are also available as a flat bed trailer option, see www.iwt.co.uk for more details

With the addition of a winch, rear prop stands and loading skids or the full-width ramp (1.83m/6' in length), the versatile flatbed can be used to carry loads such as small plant, ride-on mowers, mixers, shredders, rollers and a multitude of mobile plant equipment.

A new addition to the range is the LM208, this is the largest Flatbed trailer. The LM208 tri-axle trailer has all the normal features of an Ifor Williams Trailer but has the capacity to transport up to 10 portable toilets. This trailer is available with handrails for the operators' convenience and safety when loading. Alternatively the trailer can be used as a conventional trailer, with or without sides and with its large size the trailer offers great flexibility, including the ability to transport 6m lengths of materials or any large yet relatively light load.

The maximum gross weight for the LT model is 2000kg, whilst the heavier LM models offer between 2700kg and 3500kg.

Tough, adaptable and easy to maintain, all models are fitted with a tough resin-coated plywood platform, spare wheel and jockey wheel as standard. An option of aluminium treadplate covering is available, along with recessed lashing rings. Trailers can be further enhanced with accessories such as a headboard, ladder rack, dropsides or meshside extensions.

BEAVERTAIL

The Beavertail range is offered in width options of 6'6" and 7'6" and length options of 14' and 16'. The lighter LT models offer a maximum gross weight of 2000kg, whilst the heavier LM models offer the maximum gross weight of 3500kg.

Closely related to the flatbed range, with the addition of a sloping rear bed section, these trailers offer the flexibility of a flatbed with the added benefit of a low loading height to the rear of the trailer.

Many of the accessories available on the flatbed range can also be added to further enhance the beavertail range.

LM166B with optional electric winch (and battery) and optional propstands

TILTBED TRAILERS

Our TB range comprises six trailer models all with a width of 2100mm and four length options, two of which are also available with three axles.

With low bed height and reduced loading angles the versatility of this trailer is increased.

Tilting is achieved through the use of a hydraulic pump and ram. A choice of full width ramp, hinged skids or pull out skids are available as well as accessories such as sides, mesh sides and winch.

In addition to the TB range we also have the CT style of tiltbed trailers which complement the TB range

Introducing the Tipper, a regular on building sites all over the UK and Europe, an Ifor Williams Tipper trailer is the builder's perfect partner.

Three sizes are available

TT2515 bed size 2.5m x 1.5m (8'x5'), the smallest of the range, has a maximum gross weight of 2700kg with the option of a manual or electric hydraulic pump (and self-contained 12v battery). This trailer comes with a strengthened aluminium floor as standard.

Larger models TT3017 (bed size 3.0m x 1.7m (10' x 5'6")) and TT3621 (bed size 3.6m x 2.1m (12' x 6'6")) have electrically operated tipper mechanisms with a self-contained 12v battery as standard. Both have a maximum gross weight of 3500kg and offer all the usual benefits of a tipper trailer, coupled with the superb flexibility of the flatbed range. With the addition of loading skids and rear prop stands, the larger tipper models can also be used to carry plant and machinery.

GP126 tri-axle

GX, GH and GP Plant trailers

The Ifor Williams Plant trailer range is designed specifically for transporting plant machinery and has been standard equipment for many plant users and plant hire firms since the 1980's across Europe. We offer three distinct styles of plant trailer – the GH range, the GX range and the GP range

GH Plant Trailers

The GH range comprise welded chassis and most models offer a beavertail floor to reduce the loading angle and reduce rockover experienced with tracked equipment . In addition the trailers are supplied with 24mm thick floors meaning the trailers can safely transport not just tracked plant and equipment but also drum rollers and the range is also suitable for carrying many types of access platform.

The GH range is widely used in the Plant hire industry and is available in range of sizes.

Two particularly popular models are the GH94BT, which is widely used for transporting 1 ½ tonne compact excavators, and the GH1054BT which is targeted at 2 ½ tonne compact excavators. The trailers are all available with either full width ramps or with sliding skids.

GX Trailers

The GX range is constructed from folded pre-galvanized sections and is offered in sizes from the GX84 2.5 x 1.2m (8' X 4') to GX126 3.6m x 1.8m (12' x 6'). This very flexible trailer is also available with mesh side extensions and can be ordered with standard or long ramps or sliding skids. The smaller models are only available in 2700kg gross, but the larger sized models are available in 3500kg and are ideal for carrying compact excavators and other tracked equipment as well as dumpers.

GP Trailers

The original Ifor Williams plant trailer, the GP is an open sided welded chassis and is available with a variety of wheel options – including 16" tyres. The entire GP trailer are rated at 3500kg and can be specified with either ramps or skids. Triaxle trailers are available on some models

All ifor williams plant trailers have ramps and skids which are self-supporting and are specially designed for the demands of loading plant and equipment.

GP106 with skids

GH94BT

CT177

CT177

A versatile transporter, wide enough for most light commercials and narrow enough for the smaller car, the CT177 is the ideal trailer for the motor trade or hire professional. Its tilt bed action combined with pull out mini-skids allows for quick and efficient loading of vehicles either under their own power or using one of the winch options available.

The combination of optimum engineering design and high strength materials has produced a trailer with an excellent strength to weight ratio. Wheel arch tops are only 10cm (4") from the bed to give ample door clearance and feature high grip treads for safe entry and exit from the vehicle being carried. Optional heavy duty wheel straps feature a soft-link that will not damage expensive alloy wheels and can be stowed away in the built-in toolbox.

Mini-skids, to give improved ground clearance, can be quickly and easily slid into position. Fully retained at all times they cannot be lost or stolen and once the vehicle is loaded they simply slide back in place within the rear deck.

The removable winch arm is fully adjustable from side to side allowing alignment with off-centre vehicle recovery eyes.

CT136 twin axle

CT136

With three models available, both vehicle recovery and motorsports are catered for within this trailer range.

Utilising the same lightweight construction on all three models, the single (1400kg gross), twin axle (2000kg gross) and heavy duty (2600kg gross) models are lightweight trailers giving a maximum payload capacity of 1000kg, 1500kg and 2100kg respectively.

The optional removable / adjustable front wheel chocks take the guess work out of positioning your vehicle. The heavy duty wheel straps (conveniently stored in the lockable toolbox) can be anchored at any number of perforations provided in the bed.

CT136 single axle

CT115

The CT115 is the smallest trailer in the Ifor Williams Car Transporter range and caters for both vehicle recovery and motorsport. With a gross weight of 1400kg and an unladen weight of only 350kg, this neat trailer boasts a payload over 1000kg. Slightly smaller than the single axle CT136, the CT115 is available with similar optional accessories.

TRANSPORTA

The newest trailer within the range is the TRANSPORTA.

The perfect trailer for motorsport enthusiasts, small racing teams and classic car owners, the enclosed car transporter offers protection from the elements whilst transporting and storing high value vehicles. All models feature a durable galvanised steel chassis, with the tiltbed model featuring a manual hydraulic tilting drawbar which accommodates most vehicles and for vehicles with low ground clearance an optional pair of ramp skid extenders are available.

The trailer is available with side opening doors or upward opening doors to allow excellent access to the vehicle. An electrically operated winch is available and the sliding bracket means the whole assembly can move from side to side to allow for variation in vehicle towing eye position. The optional tyre rack and workbench, which are mounted to the front of the trailer, can accommodate a set of differently sized wheels and gives a fully functional working area over a durable large front storage cabinet constructed from lightweight material.

With many other features and accessories available you can create a bespoke enclosed car transporter that suits your requirements.

BV84 single axle model

BV85 with roller shutter

Whatever you need to carry, there's an Ifor Williams Box Van to suit your needs. Take a look at the features and you'll find practicality, durability and reliability built in.

Our Box Vans are available in a choice of three height options, three width options and four length options. Smaller models are available with a choice of single or twin axles. Most models are offered with roller shutter, combination ramp doors or van rear doors, ensuring your trailer is perfect for your needs. The white coated side panels are tough, smart and easy to clean. They provide the classic 'blank canvas' ready to be sign-written and ideal for pre-cut vinyl graphics and logos. All our Braked Box Vans feature an exclusive beam axle and leaf spring suspension system which has been developed for a safe and stable ride. Similar systems are widely used on commercial vehicles, where performance under load is essential. Renowned for its durability and ease of maintenance, the Ifor Williams beam axle system contributes significantly to the low depreciation of our trailers. Our Box Van trailers feature a tapered/curved front section to maximise space and reduce drag. The increase in fuel economy makes a real difference when you are covering long distances.

BV4

The BV4 series is a small trailer with a big heart. It's available as a single or a twin axle, the single axle version being suitable for towing behind many larger family saloons.

The single axle version offers a maximum gross weight of 1400kg, whilst the twin axle version offers 2700kg

BV5 SERIES

The BV5 series is offered with three headroom options: 5ft (which will clear most garage doors), 6ft or 7ft. There are length options of 8ft, 10ft or 12ft. Carrying capacities range from 5.95m³ to 12.12m³.

All sizes come with twin axles giving maximum gross weight of 2700kg.

BV6 SERIES

The BV6 is available in lengths of 10ft and 12ft, and two headroom options: 6ft and 7ft. All models have a maximum gross weight of 3500kg.

With parallel side walls and no wheel arch intrusions, the space inside these trailers is cavernous. The series offers a carrying capacity of up to 14.38m³.

The Ifor Williams Unbraked trailer range provides a low-cost entry into towing for thousands of new users every year.

Many owners have chosen these trailers for their ease of handling and towing plus their value for money. The extensive features add up to make an unbraked trailer the ideal choice for the smaller load.

On the road they can be towed by a family car by anyone with a licence – minimum licence requirement is category B¹, off road they can even be towed by a quad bike².

P5

The P5 is available with either a tailboard or a ramp and offers excellent strength to weight ratio with a maximum gross weight of 500kg and a payload starting at 359kg. The P5 has a floor area of 1.02m x 1.52m is 0.44m deep. There are a variety of extras available for the P5 including tarpaulin cover, mesh sides and fibreglass lockable hinged lid.

P6e, P7e & P8e

With ramp or tailboard versions, canopy and livestock options, gross weights of 500kg or 750kg on most models and a range of optional accessories, the P6e, P7e and P8e cater for most domestic, light commercial and general farmyard duties.

The P6e has a floor area of 1.21m x 1.98m, the P7e is slightly longer with a floor space of 1.21m x 2.21m. Both versions are available with maximum gross weights of 500kg or 750kg.

The P8e is the largest of the unbraked range. It comfortably carries standard building sheets (typical size of 2.4m x 1.2m) and has a maximum gross weight of 750kg. In addition, the generous width allows the loading of a variety of lawn mowers and quad bikes. The P8e is available with tailboard, a ramp or with an extended ramp version. The extended ramp version has been developed for carrying ride on mowers, which normally have limited ground clearance. Uniquely the extended ramp features an assistor for ease of use.

BV64e

Available with the choice of van style rear doors and flat roof or a convenient roller shutter with an aerodynamic GRP roof moulding. Both models feature a streamlined body and mud wings with the rear prop stands integrated into the wings. The adhesive bonded aluminium body structure gives exceptional strength whilst also saving weight, giving you more payload.

The BV64e has a floor area of 1.21m x 1.98m with an internal volume of 2.3m³, and a maximum gross weight of 500kg.

1. Refer to towing vehicle manufacturers handbook for maximum unbraked towing limit.
2. If fitted with optional Quad Bike drawbar.

P8e

The Q Range are engineered for professional use and are built to last. They come in rugged sizes from 1.5m x 1m (5' x 3') to 2.5m x 1.45m (8' x 4'9").

With its high sides and range of accessories the Q Range is an exceptionally versatile trailer. While the Q trailer is ideal for many farming applications, it is also ideal for other industries such as building, landscaping and forestry.

Q5e Off Road/Road

This is a compact and robust trailer which comes in two variants: off road only versions and a dual version suitable for both road and off road. The trailer is available with either mesh or solid hinged sides as well as stock ramp and propstands.

The off-road trailer comes without lights or mudguards— meaning it is specifically for off-road use and makes the trailer less expensive and lighter than its road alternative.

The Q5 has a bed size of 1.5m x 1m (5' x 3'3") and is available in either 750kg or 350kg gross weight. There are two options for tyres on the off-road Q5e trailer – either the flotation tyres (20.5 x 8-10) or the knobbly tyres (22 x 11-8). The latter have a very deep tread depth which helps the trailer stay on track behind the towing vehicle in muddy conditions or hilly terrain.

Q6 & Q7 Off Road

The Q6 and Q7 have a bed width of 1.22m (4') and bed lengths of 1.95m (6'4") and 2.19m (7'2"), with 750kg GVW. This means they are solely for off-road use and come with a range of additional accessories and options.

Both the Q6 and Q7 have the options of hinged mesh sides or hinged solid sides as well as a roof and rack, stock ramp with stock door or simply a ramp. The roof and rack* is ideal for carrying feed or fencing posts when animals or other items are inside. A cross division option is also available which has an integrated door for internal access.

*The roof and rack has a maximum recommended weight of 50kg and uses two fasteners which are easily removed.

Q6, 7 & 8 Road

The Q6 and Q7 have a bed width of 1.22m (4') and bed lengths of 1.95m (6'4") and 2.19m (7'2"). The Q8 has a bed width of 1.45m (4'10") and a bed length of 2.51m (8'). All braked versions have a GVW of 1000kg whilst the unbraked trailers have a GVW of 750kg.

The roof and rack option is helpful for keeping contents dry as well as being able to carry fencing posts or a whole range of other materials*. The numerous tie down points on the roof and rack allow any load to be secured at any point along.

*The roof and rack has a maximum recommended weight of 50kg and uses two fasteners which are easily removed.

TRAILER IDENTIFICATION PLATES – FOR TRAILERS PRODUCED SINCE SEPTEMBER 2012

Your trailer will have two or three identification plates which are typically attached to the right hand side of the drawbar. These plates contain important information including the trailers serial number (also known as VIN number) and its max gross weight.

For trailers produced on or before Sept 2012, there will still be a VIN Plate, which carries the serial number in the same format as the new trailers. (There may not however be a Drawbar approval plate fitted)

STANDARD EC APPROVAL VIN PLATE

1	EC approval number	1
	VIN Number	2
	Gross vehicle weight	3
	Permissible mass on a single axle	4
	Permissible mass on a double axle	5
	Permissible mass on a triple axle	6
	Internal description	7

	Trailer model	2
	Drawbar variant code	3
	Maximum gross weight that can be fitted to this model of drawbar	4
	Theoretical horizontal reference force	5
	Max static load	6
	EC approval number	7

DOWN RATED TRAILER WEIGHT VIN PLATE

(Occasionally trailers are down rated (normally if the driver has not got B1 and E towing entitlements. If it has been downrated this plate will be present.)

3	EC down-rated approval number - Country specific	1
	VIN Number	2
	Gross vehicle weight	3

SERIAL NUMBER OF YOUR TRAILER

When ordering certain types of spare parts you will need to supply us with the serial number of the trailer. This identifies the age and batch reference of the trailer, which informs us of any changes to product specification around the date of manufacture. If you are ordering spares for more than one trailer, you will need to identify which serial number the parts are intended for.

HOW TO FIND YOUR SERIAL NUMBER

Every trailer we manufacture is fitted with a type plate (plate 2 – Standard EC approval VIN plate), this will have a unique serial number printed on it by multi-dot punching. An example of a standard type plate is shown opposite. All Ifor Williams Trailers serial numbers begin with the prefix SCK. This example is printed with the full 17 digit VIN (Vehicle Identification Number). The last 6 or 7 digits represent the serial number depending on the age and model of your trailer. Some models may be fitted with a slightly smaller plate; however, the serial number will still be present and easily recognisable.

BRAKED TRAILERS

For trailers with 'A Frame' drawbars the plate is located on the outside of the right hand drawbar member. On trailers with adjustable height couplings the plate is located on the right hand section of the supporting structure that the drawbar/coupling unit is clamped to.

UNBRAKED TRAILERS

On P5/6/7e/8e (unbraked) models the plate is fitted to the front panel of the trailer, or is sometimes attached to the drawbar mounting bracket. On BV64e boxvan models the plate is fitted to the right hand side of the rear cross member.

HB403 – SINGLE HORSEBOX

Unlike all other horsebox models, the HB403 has its plates fitted to the outer face on the right hand side directly below the front ramp.

IDENTIFYING COUPLING TYPES

The coupling units fitted to your Ifor Williams trailer may be from one of several different manufacturers, when ordering spares for a coupling or brake linkage it is important to identify the manufacturer and model. Typically an overrun (brake control) coupling unit will be fitted with its own type plate, usually on the top or side of the main shaft housing. The example shown here is from Knott KF13 overrun coupling.

TRAILER COVERS & TRAVEL ACCESSORIES

The IWT Collection has been created to offer a selection of additional accessories for our horsebox and trailer customers. Items range from security and safety products to rider clothing, which are all designed to complement our horsebox range.

TRAILER COVERS

The covers are made using a specially manufactured 3 layer heat bonded material designed to be 100% waterproof and breathable. The Torrent fabric prevents water penetrating through the cover in severe weather conditions and allows any condensation that forms under the cover to dry naturally throughout the day.

The cover incorporates a velcro sealed inspection door access available for both left and right hand models, a detachable A frame and coupling cover and webbing straps with buckles keep the cover secured in stormy conditions. Also supplied are poles for lifting cover when fitting, a storage bag and fitting instructions.

- 1 **P1258 Hub cap Grey 76mm.** For trailers with bolt on knott brakes and 76mm bearings 1996 onwards. Damaged or missing hub caps should be replaced as soon as possible to avoid potential contamination of the unitised bearing.
- 2 **F1014Z Stake Nut M30.** With flange.
- 3 **F1016 Stake Nut.** Fitted to the Unbraked Eurolight & Q Range.
- 4 **F1951 Circlip.** 76mm internal (bearing retainer) circlip - for the current production type bearing.
- 5 **P00002 Bearing.** Unitized bearing for hubs with a 76mm bore. Fitted since January 1996. This bearing is sealed for life and should not be disassembled.
- 6 **P00003 Bearing.** Fitted to the Unbraked Eurolight & Q Range.

The Unitised wheel bearings do not require adjustment, however if the hubs are removed it is recommended that a new axle end nut is fitted and tightened to a torque of 350Nm/260lb ft. Over-tightening or under-tightening will cause the bearing to fail.

HUB KITS

These hub kits will suit all braked trailers manufactured since January 1996 and originally fitted with the P00002 bearing.

- 7 **KS0825 Hub kit.** 200 x 50, 4 bolt holes. Contains hub as illustrated, P1258 hub cap, F1014Z Stake nut, F1951 Circlip & P00002 Bearing.
- 8 **KS0826 Hub kit.** 200 x 50, 5 bolt holes. Contains hub as illustrated, P1258 hub cap, F1014Z Stake nut, F1951 Circlip & P00002 Bearing.
- 9 **KS0827 Hub kit.** 250 x 40, 5 bolt holes. Contains hub as illustrated, P1258 hub cap, F1014Z Stake nut, F1951 Circlip & P00002 Bearing.
- 10 **KS0828 Bearing Adaptor Kit.** This Kit is required in addition to the relevant hub kit listed above when fitting to a trailer manufactured between September 1992 & January 1996 with the SKF bearing fitted.

AXLES COMPATIBLE WITH 250 X 40 BACKPLATES – 5 BOLT

In March 2014 the design of the 250 x 40 backplate changed. For trailers manufactured before March 2014 with 250 x 40 Knott backplates, a replacement axle weld assembly is no longer available which suits that design of backplate. Should you require a replacement axle weld assembly, you will need to order a new 'complete axle assembly' which will be supplied with the new style backplates fitted (and hub).

NEW TYPE

- 1 **P12081 Spring Eye Bush.** Used in parabolic springs Type C90003 & C90004. Fitted up to 2001
- 2 **P1208 Bush.** Used in parabolic springs Type C90001 & C90002. Fitted up to 2001
- 3 **C20340 Spacer Tube.** For spring eye bush in Parabolic springs C90001 and C90002 (will not fit C90003 or C90004).
- 4 **C90003 Parabolic Spring.** Mono leaf parabolic road spring (current production type).*
- 5 **C90004 Parabolic Spring.** Twin leaf parabolic road spring (current production type).*
- 6 **F0417 Centre Bolt.** M8 x 40 Spring centre bolt. Bolts the two leaf spring together.
- 7 **C31270 Clamp Plate.** Used to secure U bolts to axle and springs (2 per axle).
C00131 **U Bolt.** Fitted the Q and the Unbraked Eurolight range of trailers.
- 8 **C00141 U Bolt.** Holds the axle and roadsprings together - 4 per axle 120mm long (single leaf springs).
- 9 **C00148 U Bolt.** Holds the axle and roadsprings together - 4 per axle 130mm long (Two leaf springs).
- 10 **C70340 Spring Retainer Bush.** 50mm Used at the flat end of the mono leaf spring to prevent spring movement (where there is no second spring eye present).
- 11 **C70341 Spring Retainer Bush.** 42mm Used at the flat end of the twin leaf spring to prevent spring movement (where there is no second spring eye present).
- 12 **C80315 Bump Stop.** Used on all trailers with Parabolic springs from January 1994
- 13 **C80316 Bump Stop.** Fitted to the new TB range of trailers, offset centre.
- 14 **C80317 Bump Stop.** Fitted the Q and the Unbraked Eurolight range of trailers.
- 15 **C80318 Rebound Bush Moulding.** Fitted to the Tipper (TT2515, TT3017, TT3621 range) above and below the suspension leaf springs at the tail end of the spring to reduce the noise generated by the suspension
F0374ZPK **Bolt M12 x 80 Hex High Tensile.** Used to secure the leaf spring through the eye of the bush. Pack Qty 10.
F0378ZPK **Bolt M12 x 100 Hex High Tensile.** Used to secure the leaf spring through the eye of the bush. Pack Qty 10.
F1056ZCPK **Nut M12 Flanged Nyloc.** Used to secure the C00141 & C00148 U Bolts. Pack Qty 10. It is recommended that these nuts are checked and tightened every 1000 miles or 2 months. They should be tightened to 140Nm (socket size 18mm)

* It is recommended that these springs are changed in axle sets only.

OLD TYPE

- 16 **P0020 5 Leaf Spring.** This type of roadspring was used on various models until January 1994.
- 17 **P0022 7 Leaf Spring.** This type of roadspring was used on various models until January 1994.
- 18 **C10011 Shackle Bracket.** Weld on component for trailers with 4,5 or 7 leaf springs.
- 19 **C00145 U-Bolt.** Holds the axle and roadsprings together - 4 per axle (7 leaf springs Post March 1990).
- 20 **C00146 U-Bolt.** Holds the axle and roadsprings together - 4 per axle (5 leaf springs Post March 1990).
F1078ZCPK **Nylon Nut 1/2" UNF.** To fit C00145 & C00146 U-Bolts. Pack qty 10
F0464ZPK **Bolt 5/8 unc x 3 3/4 Hex Head.** Used to secure the 5 & 7 leaf spring. Pack Qty 8.
F1081ZPK **Nut 5/8 unc.** Nylon Pack Qty 10.

BV64e, P5, P6e, P7e, P8e, Q5, & Q7 UNBRAKED RANGE

-  **P05915 Suspension Axle.** 500Kg GVW Rubber suspension axle complete with hubs (100mm PCD) as fitted to P5 models.
-  **P05920 Suspension Axle.** 500Kg GVW Rubber suspension axle complete with hubs (100mm PCD) as fitted to P6e & BV64e with 10" tyres.
-  **P05930 Suspension Axle.** 750Kg GVW Rubber suspension axle complete with hubs (100mm PCD) as fitted to P6e & P7e with flotation wheels.
-  **P05940 Suspension Axle.** 500kg GVW Rubber suspension axle complete with hubs (100mm PCD) as fitted to P6e & P7e with 13" wheels.
-  **P05945 Suspension Axle.** 1000kg GVW Rubber suspension axle complete with hubs. (100mm PCD) as fitted to the P8e with 13" and flotation wheels.
-  **AS4002 Axle Weld Assembly.** Fitted to the Q5 Road / Off Road with flotation wheel assemblies.
-  **AS4005 Axle Weld Assembly.** Fitted to the Q6 & Q7 Road /Off Road with flotation wheel assemblies.
-  **AS4009 Axle Weld Assembly.** Fitted to the Q5 Off Road with 22 x 11-8 wheel assemblies.
- P05931 Hub Overhaul Kit.** For the full suspension axle fitted to P6e models (1997 onwards), P5, P7e & P8e overhauls one hub. Complete with bearing, seal, clip, hub cap and axle end nut.
- 25 **P05931/HUB Hub.** For the full suspension axle fitted to P6e models (1997 onwards), P5, P7e & P8e, Unbraked Eurolight & Q range.
- 26 **P05931/BE Bearing.** For the full suspension axle fitted to P6e models (1997 onwards), P5, P7e & P8e.
P00003 **Bearing.** Fitted to the Unbraked Eurolight & Q range.
- 27 **P05931/C Circlip.** For the full suspension axle fitted to P6e models (1997 onwards). Also fitted to P5, P7e & P8e, Unbraked Eurolight & Q range.
- 28 **P05931/S Seal.** For the full suspension axle fitted to P6e models. 56mm OD x 44mm ID x 5mm.
- 29 **P05931/S2 Seal.** For the full suspension axle fitted to P6e models. 64mm OD x 44mm ID x 5mm. Also fitted to P5, P7e & P8e.
- 30 **P05931/AN Axle End Nut.** For the full suspension axle fitted to P6e models (1997 onwards). Also fitted to P5, P7e & P8e.
- 31 **P05931/HC Hub Cap.** For the full suspension axle fitted to P6e models. Fits 52mm hole.
- 32 **P05931/HC2 Hub Cap.** For the full suspension axle fitted to P6e models. Fits 64mm hole. Also fitted to P5, P7e & P8e. Unbraked Eurolight & Q range.

Check the pressure of your trailer tyres before every journey. Under-inflated tyres can cause excessive wear and increased fuel consumption. If severely under-inflated a tyre may overheat and fail. The table below indicates the correct tyre pressures, please be aware that although the total combined tyre max load may exceed the trailer gross weight, the limit outlined on your VIN plate should always be adhered to.

SPARE WHEEL BRACKETS

- 1 AS0013 **Spare Wheel Bracket.** Fitted to the older Livestock and BV trailers and the current GP Low sided range with 12" & 16" wheels.
- 2 AS4520 **Spare Wheel Bracket.** Fitted to the BV64E.
- 3 AS5100 **Spare Wheel Bracket.** Fitted to the Imperial GD range, TT105G, TT126G, P6G & P8G.
- 4 AS5106 **Spare Wheel Bracket.** Fitted to the P5e,P6e,P7e,P8e,P6b,P7b & P8b with 10", 13" & flotation wheel assemblies
- 5 AS5539 **Offset Spare Wheel Bracket.** Can be fitted to the flatbed range when a winch is fitted over the standard spare wheel bracket.
- 6 AS7001 **Spare Wheel Bracket.** Fitted to the current TB range with 10" wheels.
- 7 AS7028 **Spare Wheel Bracket.** Fitted to the current TB range with 12" wheels.
- 8 C00371 **Spare Wheel Bracket.** Fitted to the GX84.
C00215 **Spare Wheel Support J Bolt.** Compatible with the C00371 & C00373 spare wheel brackets.
C00373 **Spare Wheel Support Bracket.** Fitted to the GX105HD & GX6 range with 12" wheels.
- 9 C10769 **Spare Wheel Bracket.** Fitted to the current BV range.
- 10 C10770 **Spare Wheel Bracket.** Fitted to the current Tipper, GD, TA5G & TA510G range. Please specify size of wheel fitted when ordering.
- 11 C12766 **Spare Wheel Bracket.** Fitted to the Eurolight range.
- 12 KX9978 **Spare Wheel Bracket.** Fitted to the HB401, HB505 & HB510.

SPARE WHEEL BRACKET FITTINGS

- 13 C09803 **Spare wheel Studding.** M16 x 165mm.
- C09804 **Spare wheel Studding.** M16 x 115mm.
- C15841 **Spare wheel Clamp.** Used with the studding to secure the spare wheel.
- F1062PK **Nyloc Nut M16,8.** Compatible with the Studding. Pack Qty 10.
- F1067ZPK **Nut M16 Hex.** Compatible with the studding. Pack Qty 10.
- 14 KX0795 **Lockable Spare Wheel Carrier.** Compatible with the HB403, HB506 & HB511. Allows for a padlock to be fitted (not included)
- 15 P0885-SVR **Spare Wheel Cover.** Rigid silver /grey cover printed with the Ifor Williams logo. Fits the 165R13 wheel. Compatible with the Horsebox range.
- 16 P4084 **Spare Wheel Cover.** Rigid silver /grey cover printed with the Ifor Williams logo. Fits the 195/60R12 wheel. Compatible with the Eventa.

SPARE WHEEL KITS

Wheel assembly, bracket and all fittings included.

- KX0243 **Spare Wheel Kit.** CT115 & CT136
- KX35318 **Spare Wheel Kit.** GH94BT (165R13)
- KX35319 **Spare Wheel Kit.** GH94 (195/55R10TL)
- KX35320 **Spare Wheel Kit.** GH1054BT (185/70R13)
- KX8645-A **Spare Wheel Kit.** Q#e (Off-Road & Flotation). Not applicable for Q5e Off Road trailers with knobby wheels
- KX8645-B **Spare Wheel Kit.** Q#b (195/55R10)

Fitted until
late 2012

- 1 CP00321 **Mudguard Twin Arch Section.** Used on the HB403, HB506 & HB511. Sold individually.
- 2 CP00322 **Mudguard Inner Section.** Used on the HB403, HB506 & HB511. Sold individually.
- 3 C71730 **Mudguard Single.** Used on the CT115, CT136 & CT136SA, P5E & P6E with 10" wheels fitted. (1 pair)
- 4 C71733 **Mudguard Single.** Used on the Eurolight range and The P6E, P7E & P8E with 13" wheels. (1 pair)
- 5 P0605 **Mudguard Single.** Used on the P6E, P7E & P8E with wheels fitted. (1 pair)
- 6 P0608 **Mudguard Single.** Used on the TT126G. (1 pair)
- 7 P0610 **Mudguard Single.** Used on the TA5G 12', TA5G 12' - 4ft h'room, TA510G 12' & TA510G 14', HB510XL 10' GD 4 & 5 with 16" wheels. (1 pair)
- P0613 **Mudguard Tandem.** Length 1540mm. Used on the GP 6, TT105G, TA5G 10' & TA5G 10' 4ft h'room, BV106G & BV126G 12" & 13" wheels GD105, GD125, GD106 & GD126. (1 pair)
- P0614 **Tandem Mudguard.** Length 1750mm. Used on the TA5G 10' with 16" Wheels & TA510G 10', GD105 & GD125 with 16" wheels, BV106 & BV126 with 16" wheels, HB510XL & HB610. (1 pair)
- P0619 **Tandem Mudguard.** Length 1500mm. Used on the HB401, HB505 & HB510. (1 pair)
- P0621 **Tri-Axle Mudguard.** Used on the TA510G 14' Tri-Axle. (1 pair)
- 8 C80370 **Mudflap.** For the GH & GP models. Sold individually.
- 9 C80737 **Mudflap.** For the LT/LM/CT models with IWT logo Sold individually.
- 10 C00473 **Mudguard Bracket.** Centre for Tandem mudguards.
- 11 C00476 **Mudguard Bracket.** Front and rear for Tandem Mudguards with 13" wheels fitted.
- 12 C00477 **Mudguard Bracket.** Front and rear for Tandem Mudguards with 16" wheels fitted.
- 13 C14244 **Mudguard Inspection Step.** Fitted between the P0610 mudguards on the older livestock trailers.

Fitted from late 2012

- 1 C72710 **Mudguard.** Fitted to the TB range with 10" & 12" wheels. Sold individually.
- 2 C72711 **Mudguard.** Fitted to the CT115, CT136 & P5e with 10" wheels. Sold individually.
- 3 C72712 **Mudguard.** Fitted to the Beavertails, Boxvan range with 12" wheels, CT166 & 167, DP range, Eurolight range with 10" & 13" wheels, LT/ LM Range, P6e, P7e, P8e, P6b & P7b. Sold individually.
- 4 C72713 **Mudguard.** Fitted to the BV range, GD range, P#G and TA5G with 13" wheels. Sold individually.
- 5 C72715 **Mudguard.** Fitted to the BV, GD, HB510XL, TA5G & TA510G with 175/75R16 wheels. Sold individually.
- 6 C72716 **Mudguard.** Fitted to the BV, HB510XL, HB610, TA5G & TA510G with 6.50R16 10pr. Sold individually.
- C72583 **Rainflap.** GH64.
- 7 C72574 **Rainflap.** Fitted to the GP,Q#E & Q#B road range.
- 8 C72584 **Rainflap.** GH94+3BT & GH1054BT.
- 9 C72588 **Rainflap.** Fitted to the GH94.
- 10 C72589 **Intermediate Rainflap.** GH94+3
- 11 C72614 **Rainflap.** Fitted to the GX4 & 5 range.
- 12 C72615 **Rainflap.** Fitted to the GX6 range.
- 13 C12370 **Mudguard Stay.** 21mm offset. Measurement taken from centre of shackle bolt hole to angle of bracket.
- 14 C12371 **Mudguard Stay.** 27mm offset. Measurement taken from centre of shackle bolt hole to angle of bracket.
- 15 C12372 **Mudguard Stay.** 47mm offset. Measurement taken from centre of shackle bolt hole to angle of bracket.
- 16 C12373 **Mudguard Stay.** 75mm offset. Measurement taken from centre of shackle bolt hole to angle of bracket.
- 17 C12374 **Mudguard Stay.** 96mm offset. Measurement taken from centre of shackle bolt hole to angle of bracket.

P00280	Unbraked Coupling Assembly KZE 7.5 110 – 120MMcentres. Used on the Q#e and unbraked Eurolight range.
P00355LDB	Coupling/Drawbar. Swan neck style drawbar and coupling head. Used on the P5 Range.
P00355DB	Coupling/Drawbar. Swan neck style drawbar and coupling head used on the BV64e & P6e Range.
P00355DB2	Coupling/Drawbar. Swan neck style drawbar and coupling head used on the P7e Range.
P00355DB3	Coupling/Drawbar. Swan neck style drawbar and coupling head used on the P8e
P00355DBQ	Coupling/Drawbar. Used on the Q5e Road.
C24431	Straight Drawbar. Q5e Off Road. Coupling head not included.
1 P00355	Coupling Head. 750kg 50mm ball, pressed steel head. Used on all unbraked trailers.
2 P00270	Swivel Hitch. Used on the Q5e Off Road. Not approved for on-road use.
3 P0150	Coupling Head. 750kg 50mm ball, cast iron coupling head. Used on older P6e drawbars.
4 P00354*	Slider lock. Fits within the sliding bolt aperture on the P00355 head to prevent operation of the handle, can also be used when coupled to car.
P00355SC	Secondary coupling cable. Used with P00355 unbraked coupling head.
P00355SK	Drawbar Skid. Used on all unbraked trailers.
5 P00355PP	Electrical Plug Parking Socket. Can be fitted with braked & unbraked couplings.
6 WT5100-00020	Coupling Raiser. 20mm used on the Q#e range.

P6e with tailboard and 145/70R13 tyres.

KF13 & KF13E

EYE MAY DIFFER FROM THE PHOTOGRAPH

1 P00317-120 KF13 Coupling Unit. Pressed Steel Body 750 -1400kg GVW. 120mm bolt spacings, hydraulically damped overrun coupling unit, incorporating energy store handbrake for use with autoreverse brakes and 50mm ball head. Used on the BV*4, BV*5 – single axle, GD*4 & GD*5 – single axle ranges & P*G.

P00307 KF13E Coupling Unit. 1400kg GVW, 120mm bolt spacings, fitted with pressed steel head. Used on the EL Eurolight, P#b & Q#b ranges.

2 P00301 Coupling Head. Replacement low profile 50mm coupling head for the KF13 coupling. Includes the lock and two keys. Requires P00939 packing shim.

P003075 Pressed Steel Coupling Head KF13E. To fit 45mm drawtube. Lockable with a padded grip. For the P00307 Coupling. Used on the Eurolight range. Requires P00939 packing shim.

P00939 Packing Shim. Fits under the coupling heads P00301 & P003075.

3 P00302 Lock insert. Replacement lock for the Avonride coupling head. KF13 coupling.

4 P00303 Cover Cap. Protects the Avonride coupling head lock from ingress of dust and water. KF13 coupling.

5 P00318C 30mm Eye Kit. Includes all mounting hardware.

P00333 40mm Eye Kit. Includes all mounting hardware.

6 P00369 Bellows. Replacement protective bellows.

7 P00937 Damper. Replacement hydraulic damper for KF13, KF13E.

P00936 Damper Bracket. Holds one end of the damper rod within the body of the coupling.

8 P00938 Drawtube. Includes stop ring.

9 P00931 Powered Handbrake Upgrade Kit. Complete with oil-damped spring pack, handbrake lever and all mounting hardware etc.

P00929 Oil Damped Spring Pack.

P00928 Hand Brake Lever Assembly.

10 P00940 Overrun Lever. Fitted to the rear of the coupling unit, this lever creates the pull on the brake rod.

11 P00892 Shoulder Bolt. Fits through the centre of the overrun lever to secure the handbrake lever in place.

12 P00363 Clamp handle. Short jockey wheel clamp handle.

13 P00399 Retainer pad. Fits within the recess in the overrun unit to securely clamp the jockey wheel.

14 P00387 Breakaway cable spring ring type. It is recommended that you carry a spare breakaway cable whenever you tow.

15 P00899 Breakaway cable clevis type. For more recent knott couplings having this type of cable fitted originally.

16 P0235 Jockey Wheel Clamp. Used on the Q#b, P#b, EL101, EL142, EX202 & EL141. Compatible with the P00307 & P00308 couplings.

KF20, KFG20 & KRV20

EYE MAY DIFFER FROM THE PHOTOGRAPH

- P00308** Coupling Unit KF20. 120mm centres. Lockable pressed steel head. High rear bracket. Used on the Eurolight range EX202-2515, 3015 & 3615.
- P00320** Coupling Unit KRV20 (Pressed Steel Body) For 100Mm Square Tube Drawbars. 1100-2000Kg GVW Hydraulically damped overrun coupling unit, incorporating energy store handbrake for use with autoreverse brakes and 50mm ball hitch. Used on the HB401 & HB403.
- P00324** Coupling Unit KFG20 (KPD20POD). With pressed steel head. Used on the CT115 & CT136.
- P00330** Coupling Unit KFG20. Weight range 1100 – 1200kg. 50mm lockable low profile coupling head. Used on the GH64.
- P00301** Coupling Head. Replacement lockable low profile head for the KRV20 & P00330 KFG20 couplings.
- P003085** Coupling Head. Replacement head for the P00324 KFG20 coupling. P00939 packing shim also required.
- P00302** Lock insert. Replacement lock for the Avonride coupling head. Used on the Avonride head fitted to the KFG20 & KRV20 coupling units.
- P00303** Cover Cap. Protects the Avonride coupling head lock from ingress of dust and water. Used on the Avonride head fitted to the KFG20 & KRV20 coupling units.
- P00333** 40mm Eye Kit. Includes all mounting hardware. For the KFG20 coupling.
- P00369** Bellows. Replacement protective bellows for the KF20 & KRV20 coupling.
- P00417** Bellows. Replacement protective bellows for the P00324 KFG20 coupling.
- P00373** Damper. Replacement hydraulic damper for the KF20, KRV20 & KFG20 couplings.
- P00938** Drawtube. For the KF20, KFG20 & KRV20 couplings.
- P00413** Overrun Lever. For the KFG20 couplings.
- P00940** Overrun Lever. For the KF20 & KRV20 couplings.
- P00868** Spring Pack. Oil damped unit for the KFG20 & KRV20 couplings.
- P00929** Spring Pack. Oil damped unit for the KF20 coupling.
- P00869** Handbrake Lever. For the KFG20 & KRV20 couplings.
- P00928** Handbrake Lever. For the KF20 coupling.
- P00363** Clamp Handle. Jockey clamp handle.
- P00399** Retainer Pad. Fits within the recess in the overrun unit to securely clamp the jockey wheel.
- P00387** Breakaway Cable Spring Ring Type. It is recommended that you carry a spare breakaway cable whenever you tow.
- P00899** Breakaway Cable Clevis Type. For more recent Knott couplings having this type of cable fitted originally.

KFG27

EYE MAY DIFFER FROM THE PHOTOGRAPH

- 1 P00335 KFG27 Coupling Unit (Cast Body).** 1400-2700kg GVW Hydraulically damped overrun coupling unit, incorporating energy store handbrake for use with autoreverse brakes and 50mm ball hitch. Used on the BV4TA, BV5G, CT136HD, GD84TA, GD5, GD6, GH94, GX4, GX5, HB505, HB510, LM5, TA5G & TT85G.
- P00335-120HB KFG27 Coupling Unit 120mm bolt spacing.** Used on the GD4HD, HB506, HB511, LT range, TA5G 12' x 4' & TT2515.
- 2 P00301 Coupling Head.** Replacement lockable low-profile head for KF/KFG overrun units with a 50mm drawtube.
- 3 P00302 Lock Insert.** Replacement lock for the Avonride coupling head.
- 4 P00303 Cover Cap.** Protects the Avonride coupling head lock from ingress of dust and water.
- 5 P00404 30mm Eye.** Eye kit includes all mounting hardware to fit KFG27 overrun unit.
- 6 P00339 40mm Eye.** Eye kit includes all mounting hardware to fit KFG27 overrun unit.
- P00420 50.8mm Eye Kit.** Eye kit includes all mounting hardware to fit KFG27 overrun unit.
- 7 P00376A Nato Eye.** Eye kit includes all mounting hardware to fit KFG27 overrun unit.
- 8 P00369 Bellows.** Replacement protective bellows for drawtube of KF27 (Pressed steel body).
- 9 P00417 Bellows.** Replacement protective bellows for drawtube of KFG27 overrun unit (Cast body).
- 10 P00374 Damper.** Replacement hydraulic damper for KFG27.
- P00878 Damper Support Bracket.** Fits within body of coupling.
- 11 P00881 Grab Handle.**
- P00882 Grease nipple adaptor.** Bolt that is fitted through handle.
- 12 P00408 Drawtube.** 50 x 10 DIN2391.
- 13 P00869 Hand Brake Assembly KFG Low Type.**
- 14 P00868 Oil Damped Spring Pack Knott.** Oil - damped unit only, as fitted to later or upgraded units.
- 15 P00867 Spring Pack Mount Plate.**
- 16 P00413 Overrun Lever.** Fitted to the rear of the coupling unit, this lever creates the pull on the brake rod.
- 17 P00892 Shoulder Bolt.** Fits through the centre of the overrun lever to secure the handbrake lever in place.
- 18 P00363 Clamp Handle.** Short jockey clamp handle for Knott couplings.
- 19 P00399 Retainer pad.** Fits within the recess in the overrun unit to securely clamp the jockey wheel.
- 20 P00387 Breakaway Cable Spring Ring Type.** It is recommended that you carry a spare breakaway cable whenever you tow.
- 21 P00899 Breakaway Cable Clevis Type.** For more recent Knott couplings having this type of cable fitted originally.

22 P00915 Manual Reverse Kit. While the basic reversing function remains automatic, this kit allows easier reversing up steep hills or on poor surfaces, where traction can sometimes be a problem. Please note Can only be fitted to the KFG27 coupling manufactured from late 2005 that has slot fitted as standard.

KFG35

EYE MAY DIFFER FROM THE PHOTOGRAPH

- 1 P00340 KFG35 Coupling Unit (Cast Body).** 2700-3500Kg GVW Hydraulically damped overrun coupling unit, incorporating energy store handbrake for use with autoreverse brakes and 50mm ball hitch. Used on the BV6 range, CT166, CT167, CT177, DP range, GH1054BT, GP 6 range, GX105HD, GX125HD, GX106, GX106N, GX126, HB510XL, HB610, LM105GHD, LM125GHD, LM106G, LM126G, LM146G/GB, LM166G/GB, TA5GHD, TA510G 10', 12' & 14', TT105G & TT126G ,TB 3.5T, TT3017 & TT3621.
- 2 P00907 Coupling Head.** Replacement lockable low-profile head for KF/KFG overrun units with a 60mm drawtube.
- 3 P00302 Lock Insert.** Replacement lock for the Avonride coupling head.
- 4 P00303 Cover Cap.** Protects the Avonride coupling head lock from ingress of dust and water.
- 5 P00402 30mm Eye.** Eye kit includes all mounting hardware to fit KFG35 overrun unit.
- 6 P00401 40mm Eye.** To fit the KFG35 overrun unit.
P00421 50.8mm Eye Kit. Eye kit includes all mounting hardware to fit KFG35 overrun unit.
- 7 P00920 Nato Eye.** Towed by Nato style towing jaw, can be fitted to the KFG35 in place of the existing eye or head.
- 8 P00873 Bellows.** Replacement protective bellows for drawtube of KFG35 overrun unit.
- 9 P00400 Damper.** Replacement hydraulic damper for KFG35.
P00878 Damper Support Bracket. Fits within body of coupling.
- 10 P00881 Grab Handle.**
P00882 Grease Nipple Adaptor. Bolt that is fitted through handle.
- 11 P00871 Drawtube.** For the KFG35 overrun unit.
- 12 P00869 Hand Brake Assembly KFG Low Type.**
- 13 P00868 Oil Damped Spring Pack Knott.**
- 14 P00867 Spring Pack Mount Plate.**
- 15 P00885 Overrun Lever.** Fitted to the rear of the coupling unit, this lever creates the pull on the brake rod.
- 16 P00892 Shoulder Bolt.** Fits through the centre of the overrun to secure the handbrake in place.
- 17 P00364 Clamp Handle.** Long jockey clamp handle for Knott couplings.
- 18 C01706 Extended Jockey Wheel Clamp Handle.** Used on the CT177, DP120S & GP6 range.
- 19 P00399 Retainer Pad.** Fits within the recess in the overrun unit to securely clamp the jockey wheel.
- 20 P00387 Breakaway Cable Spring Ring Type.** It is recommended that you carry a spare breakaway cable whenever you tow.
- 21 P00899 Breakaway Cable Clevis Type.** For more recent knott couplings having this type of cable fitted originally.
- 22 P00915 Manual Reverse.** For KFG35 Overrun units. While the basic reversing function remains automatic, this kit allows easier reversing up steep hills or on poor surfaces, where traction can sometimes be a problem.

- 1 P0515 **251S Coupling unit.** 1500-2600Kg GVW Hydraulically damped overrun coupling unit, incorporating gas sprung handbrake for use with autoreverse brakes and 50mm ball.
- 2 P0549 **Jockey Bracket.** Type 295-191 this is used on the 251s overrun unit.
- 3 P0549H **Clamp handle.** For the 295-191 Bracket.
- 4 P0549P **Pad.** Fits within the recess in the 295-191 Bracket to clamp against the jockey wheel tube.
- 5 P0542 **Damper.** Old Type. (325mm Centres).
- 6 P0542A **Damper.** New Type. (505mm Centres).
- 7 P0528 **Head.** Replacement coupling head for 251's overrun unit.
- 8 P0551 **Bellows.** For the 251s overrun unit.
- 9 P0545 **Brake lever.** For the 251s overrun unit.
- 10 P0548 **Outer clamp.** Outer part of Jockey wheel clamp on 251S overrun unit.
- 11 P00387 **Breakaway cable.** It is recommended that you carry a spare breakaway cable whenever you tow.

- 1 P0167 HU12 Coupling Unit. 3500kg.** Fitted with a 50mm ball head.
- 2 P0156A HU3HE Coupling Unit. 2750kg.** Fitted with a 50mm ball head.
- 3 P02240 Coupling Head.** Replacement coupling head for the HU12 Coupling, supplied with a lock and two keys. Will fit couplings manufactured since 1987.
- 4 P02950 Coupling Head.** Replacement coupling head for the HU3HE Coupling supplied with a lock and two keys. Will fit couplings manufactured since 1980.
- 5 P00368 Coupling Head Lock.** Supplied with 4 keys.
- 6 P0270 Bellows.** For the HU12 coupling.
- 7 P0253 Bellows.** For the HU3HE coupling.
- 8 P0212A Locking Handle & Pad.** To lock the jockey wheel in place on the HU12 coupling.
- 9 P0221B Locking Handle.** To lock the jockey wheel in place on the HU3HE coupling, also for use with the P0223 bracket.
- 10 P0213 Retainer Pad.** Fits within the recess of the HU3HE coupling to securely clamp the jockey wheel.
- P0223 Bracket.** 43mm Cast bracket for jockey wheels and propstands.
- P0223P Pad.** Retaining pad for the P0223 bracket.
- P0216 Handbrake Lever.** For the HU3HE and HU12 Suitable for couplings manufactured from late 1995 onwards, supplied with breakaway cable.
- 11 P0248 Energy Store.** For use with the old and new type handbrake lever.
- 12 P0279 Damper.** Compatible with the HU12 coupling unit.
- 13 P0259A Damper.** Compatible with the older HU3HE couplings. Supplied with an eyelet at one end and a threaded bar at the other.
- 14 P0259B Damper.** Compatible with the later HU3HE couplings. Supplied with an eyelet at both ends.
- 15 P0251 Breakaway Cable.** Compatible with the Bradley couplings.
- P0214 Knob.** For Bradley TJ12 Jockey wheel handle.
- P0215 Wheel & Tyre.** 7 inch for Bradley TJ12 jockey wheel.

- 1 P0475 Jockey wheel 48mm.** Heavy duty ribbed shaft design and heavy duty tyre. Suits the Bradley HU12, Knott KFG35 couplings or the P0209 clamp.
- 2 P0475H Jockey wheel 48mm.** Heavy duty version with extended slimline handle for extra clearance against winch brackets. Fitted with the P04751 tyre.
- 3 P0474 Jockey wheel 48mm.** Medium duty smooth stem design, suits the Knott KF13, KF13E, KF20, KFG20, KRV20 KFG27 & Alko P0515 couplings.
- 4 P0476 Jockey wheel 42mm.** Standard duty smooth stem design, suits the Bradley HU3H & HU3HE couplings.
- 5 P0567 Jockey Wheel 35mm.** Suits the BV64e, P5, P6e, P7e, P8e, Q range and the unbraked Eurolight.

- 6 KX0221 Propstand kit.** Pair of propstands for the GD range.
- 7 KX0222 Propstand kit.** Pair of propstands for the Box Van and Horsebox range.
- KX0224 Propstand kit.** Pair of propstands for the BV4 & BV5 range.
- KX0225 Propstand kit.** Pair of propstands for the P#e, P#b & Q ranges.
- KX0233 Propstand kit.** Pair of propstands for the HB403, HB506 & HB511.

- 8 P04741 Wheel.** Wheel & tyre 52mm x 200mm diameter. Suits the P0474, P0476 & P0567 Jockey wheels.
- 9 P04743 R clip.** Includes chain, as fitted to P0474, P0475 & P0476.
- 10 P04744 Axle tube.** Fits items 3 & 4.
- 11 P04745 Thrust bearing unit.** Fits between inner and outer stem of P0475, P0475H, P0474 & P0476 Jockey wheels.
- P04746 Thrust Bearing Washer.** To be fitted with the P04745 thrust bearing.
- 12 P04751 Wheel.** Wheel and tyre 75mm wide x 235mm diameter. Suits the older P0475 Jockey wheels and P0475H Jockey wheels.
- 13 P04752 Wheel.** Wheel and tyre 60mm wide x 210mm diameter. Suits the current P0475 Jockey wheel.
- 14 P04754 Jockey wheel axle.** For the wide tyre fitted to heavy duty ribbed jockey wheels.
- 15 P0209 Clamp bracket.** Complete clamp bracket for all our ribbed heavy duty jockey wheels & propstands.
- P0209SP Split pin.** Fitted through top of heavy duty prop stand.
- P0209H Handle.** For heavy duty prop stand clamp.
- P0209N2 Nut M16.** (Clamp nut used in the P0209 bracket).
- P0221 Propstand bracket.** Mounting bracket for 35mm propstand or jockey wheel, requires pad and handle to complete.
- P0221P Retainer pad.** Fits within the recess of the P0221 bracket.
- P0221H Clamp handle.** M12 for metric propstand clamps.
- P0223 Jockey bracket.** P200 bracket for fitting 42mm diameter jockey wheels or propstand tubes.
- P0223P Pad.** For bracket P0223.
- P0221B Clamp handle.** 1/2" For the P0223 Bracket.

- 16 AS5875 Propstand Leg.** Used on the P5, P6, P7, P8 & Q ranges. 460mm.
- AS5874 Propstand Leg.** Used on the BV4 & 5, HB & GD ranges. 560mm.
- P0197 Propstand leg.** Serrated shaft, used on the BV6 range with 12" wheels. 590mm.
- P0196 Propstand leg.** Serrated shaft, used on the BV6 range with 16" wheels. 720mm.

- 1 KX0227 Propstand Kit.** Pair of propstands and fittings. Compatible with the Beavertail, Flatbed and old tipper range.
- KX0220 Propstand kit.** Pair of propstands and fittings for current LT/LM85 trailer range.
- KX3185 Propstand Kit.** Pair of propstands, spigots and backing plates for the Eurolight range.
- 2 KX6316 Propstand Kit.** Pair of propstands for the current TT Tipper range.
- P1114 Propstand.** Individual propstand. Compatible with the Beavertail, Eurolight & Flatbed range.
- P11145 Propstand.** Individual propstand leg for the TT range.
- 3 P1115/P Pin Assembly.** Compatible with the P1114 & P11145 propstands.
- 4 P11170G Bolt on Spigot.** Compatible the Beavertail, Flatbed and old Tipper range.

- LM146 with headboard, dropsides, mesh sides, ramp and prop stands.

1 KX8105 Ifor Williams Coupling Head Lock. The lock is designed to fit 50mm ball couplings fitted with the Avonride head – and will suit most braked trailers in the Ifor Williams range (the only exceptions are the CT115, CT136, Eurolight range, P*b & Q*b).

The coupling head security lock has been designed and manufactured to resist attack and uses toughened steel and high security barrel lock mechanisms. In rigorous security testing, the lock has been awarded 'Gold Standard' by 'Sold Secure' – a major UK test house.

The coupling head lock is plated all over and in addition the upper section is powder coated. The internal elements of the lock are made from non-rusting materials. A convenient weather-proof cover is also provided which covers the whole lock to give additional protection.

A spare barrel lock is supplied giving the option of replacing the lock on the coupling head of the trailer enabling the use of the same key to open both locks. (The coupling lock comes with a total of four keys)

- 12 P12451 **Rope Cleat.** Round plastic cleat used on P5 model.
- 13 C04663 **Rope Hook.** Used on the Low loader range of trailers.
- 14 C04664 **Rope Hook.** Formed rope hook used on general duty trailer models.
- 15 C04667 **Rope Hook.** Used on the unbraked & P*b ranges.
- 16 C04669 **Rope Hook.** Used on the Eurolight range.

- 17 P1050 **Shoring Pole.** BV4 Series spring loaded pole that fits between the receiver tracks to secure upright loads.
- P1047 **Shoring Pole.** BV5 Series spring loaded pole that fits between the receiver tracks to secure upright loads.
- P1048 **Shoring Pole.** BV6 Series spring loaded pole that fits between the receiver tracks to secure upright loads.
- 18 P1035 **Receiver Track.** Allows for the use of shoring poles, 2.40m.
- P1036 **Receiver Track.** Allows for the use of shoring poles, 3.10m.
- P1037 **Receiver Track.** Allows for the use of shoring poles, 3.62m.

- 1 P1046 **Cargo Strap & Ratchet.** 3 metre long.
- 2 P1049 **Cargo Strap & Ratchet.** 8 metre long.
- P10495 **Cargo Strap.** 3 metre long ratchet cargo strap.
- 3 P1042 **Wheel Securing strap.** For use on the CT177
- 4 KX0201 **Lashing Ring Kit.** Used on the GX range. The kit contains one recessed lashing ring, one mounting plate, nuts, bolts & washers.
- 5 KX0202 **Lashing Ring Kit.** Used on the Box van range. The kit contains one recessed lashing ring, one mounting plate, nuts, bolts & washers.
- 6 KX0206 **Lashing Ring Kit.** Used on the Flatbed, Beavertail range. The kit contains one recessed lashing ring, one mounting plate, nuts, bolts & washers.
- 7 KX0651 **Lashing Point Kit.** Used on the Unbraked range. The kit contains two lightweight lashing points, nuts, bolts & washers.
- 8 KX3190 **Lashing Ring Kit.** Used on the Eurolight range. The kit contains two recessed lashing rings, nuts, bolts & washers.
- 9 KX6318 **Single Lashing Point.** Used on the current Tipper range. The kit contains one U bolt and nuts.
- 10 KS3740 **Bolt On Lashing Lug Kit.** One pair, compatible with the GH range.
- 11 KS0204 **Lashing Lug Kit.** Used on the GX range, mounted on the side panel (Internal). The kit contains two lashing lugs, two back plates, nuts & bolts.

- P1193 Gas Spring.** This gas spring will eventually supersede P1191 totally over a period of 9 months starting in September 2016. (The two parts are interchangeable). 2100N

- 1 P1159** Ramp Spring. Used on the GH94BT & GH1054BT rear ramps. Overall length 520mm.
- P1159-00470** Ramp Spring. Used on the GH64 rear ramp. Overall length 470mm.
- 2 P1161** Ramp Spring. Used on TA5, TA510G & DP ramps, BV6 ramp doors & HB610 rear ramps. Overall length 660mm.
- P1162** Ramp Spring. Used on container front ramps. Overall length 640mm.
- 3 P1163** Ramp Spring. Used on HB401, HB505 & HB510 rear ramps, GH94 ramps, BV4, BV5 Rear ramp doors & HB510XL rear ramps. Overall length 640mm.
- 4 P1165** Ramp Spring. Used on the older GX ramps and the TA5G 4' rear ramp. Overall length 280mm.
- 5 P1167** Ramp Spring. Used on the BIAB, Container, Eventa and Transporta rear ramps. Overall length 720mm.
- 6 P1168** Ramp Spring. Used on the imperial GD range. Overall length 300mm.
- 7 P1184** Rear Ramp Spring. Used on the BIAB, Container, Eventa and Transporta rear ramps. Overall length 723mm
- KS0800** Ramp Spring kit. Includes 2 x P1163 springs, 2 x C00215 J Bolts & 6 x F1005Z nuts.
- 8 KS0803** Ramp Spring Kit. Includes 2 x P1168 springs, 2 x C00216 J bolts & 2 x F1005Z.
- C70310** Ramp Spring Cover. Used on the HB510XL & HB610 to cover the top of the spring.
- 9 C70311** Ramp Spring Cover. Used on the HB401, 505, 510 and Container rear ramps to cover the top of the spring.

RAMP FASTENERS

1 C00049 Sliding Bolt. Vertical locking bolt used on the HB505 ramp door model, BV4, BV5 & BV6 Ramp doors & TA5, TA510 ramp doors.

C00263 Sliding Bolt. Horizontal, used on the BV126G 7' Ramp Doors.

C40142 Sliding Bolt. Horizontal locking bolt used on the HB505 ramp door model, BV4, BV5 & BV6 Ramp doors & TA5, TA510 ramp doors.

P1173 Spring. Used with the vertical sliding bolts.

2 P12361 Moulded Pin & Knob. Used with the sliding bolts on the Box Van & Livestock.

3 C70136 Spring Bolt Guide Bush. Used on the Boxvan range with ramp doors. 4 per trailer.

4 C01690 Ramp Closure Lock Pin. Used on the Boxvan ramp door range and Livestock rear ramps.

5 C14324 Ramp Closure Handle. Right hand used on the Boxvan ramp door range and Livestock rear ramps.

C14325 Ramp Closure Handle. Left hand used on the Boxvan ramp door range and Livestock rear ramps.

P1288 Ramp Closure Spring. Used on the Boxvan ramp door range and Livestock rear ramps.

6 C30709 Ramp Fastener Ramp Handle. M14. Used on the GD, GH, GP & GX ranges to secure the ramps & skids.

7 P10885 Ramp Fastener Eye Bolt. M14. Used on the GD, GH, GP & GX ranges to secure the ramps & skids.

8 AS5087 Spring Bolt. Used to secure the Imperial GD tailboard.

9 AS5870 Spring Bolt. Used on imperial GD ramps, metric GD tailboards, current large cross divisions and livestock barrier kits.

10 C00120 Door Stay. Used on the BV4 range to hold the van doors open.

C00256 Door Stay. Used for holding the ramp doors open on the BV6 range.

C00266 Door Stay. Used for holding the ramp doors open on the TA5G & TA510G.

P1023 Plastic Clip. Used to secure the door stays when not in use.

C00898 Fixing Bracket. Secures the door stays on the Box Van ramp door / van door combinations and Livestock ramp doors.

11 C31249 Ramp Fastener Handle. Used on the old Horsebox Range front and rear ramps and the HB510XL rear ramp.

12 P1079 Over Centre Ramp Catch. Used on the front and Rear ramps of HB610 & containers

13 P1053 Handle. Locking handle with 180 degree movement between open and closed, 8mm square operating shaft. Used on the rear doors of Box Vans. With ramp doors.

14 P1054 Handle. Chrome lever handle used on box vans with van doors.

- 1 P1066 Paddle Latch.** Lockable Inspection door latch. Used on the classic horsebox HB510XL & HB610.
- 2 C00272 Inspection door latch.** Used on the older Classic HB range to secure the paddle latch P1066.
- AS4275 Latch Keep.** Used on the HB510XL & HB610 to secure the paddle latch P1066.
- C00273 Latch Keep Bridge.** Used on the HB510XL & HB610.
- C70322 Latch Cover.** Used on the older Classic HB range, HB510XL & HB610.
- 3 P1803 Inspection Door Lock.** Outer assembly. Used on the current HB range and the Eventa Inspection door, storage and toilet doors.
- 4 P1804 Inside Latch.** Used on the Eventa inspection door
- 5 WA00460 Inspection Door Inner Latch.** Used on the current Horsebox range.
- 6 P10580 Handle.** Push button handle used on BV4 & BV5 inspection doors.
- 7 P1059 Inner Latch.** RH internal door latch mechanism as used on boxvans with left side inspection doors. Compatible with the P10580 handle.
- P1060 Inner Latch.** LH internal door latch mechanism as used on boxvans with right side inspection doors. Compatible with the P10580 handle.
- AS0254 Inspection Door Locking bar bracket.** Top, used on the BV6 7' Inspection door.
- AS0255 Inspection Door Locking bar bracket.** Bottom, used on the BV6 7' Inspection door.
- AS0256 Inspection Door Locking Bar Assembly.** Used on the BV6 7' Inspection door.
- AS0258 Inspection Door Latch Assembly.** Used on the BV6 Inspection door.
- AS1691 Inspection Door Handle.** Used on the BV6 inspection door.

LINCH PINS & RECEIVERS

- 1 P1110/LS** **Cross Division Storage Pin.** To secure the large cross division to the front panel of livestock trailers.
- 2 P1110/50SS** **Linch Pin.** ¼ inch diameter stainless steel lynch pin with retainer chain fitted. Used on the horsebox range, to secure unbraked trailer ramps and tailboards and to secure drop side and mesh kits.
- 3 P1096** **Linch Pin.** Used on the CT136 & TB wheel chock kits, CT115 & CT136 winch mounting kits and on the older style Tipper rear pillars.
- 4 P1098** **Linch Pin.** Stainless steel, used within the body kit and mesh kits for the TT2515, TT3017 & TT3621.
- 5 CP00581** **Linch Pin & Chain.** Used on the current HB403, HB506 & HB511 to secure ramp latch.
- 6 P11155** **Pin Assembly.** HB510XL & HB610 telescopic partitions.
- 7 P11190** **Pin & Chain.** Used to secure the front and rear ramps on the old horsebox range and to secure the rear ramp on the HB510XL.
- 8 P1099** **Linch Pin Receiver.** Used on Eurolight, P6e, P7e & P8e mesh kits.
- 9 P1105** **Linch Pin Receiver.** Bolt on, used on many mesh side kits (headboard connection) & LT/LM ramp pillars.
- 10 P1107** **Linch Pin Receiver.** Used on livestock trailer back rails, rear barriers, Q range mesh & sold panel kits and hinged mesh kits.

ANTILUCE FASTENERS

- 11 P1003D** **Antiluce.** As used on rear ramps of horseboxes (older models), livestock trailers and canopies.
- 12 P1005D** **Antiluce.** Used within the metric GD mesh kits.
- 13 P1007D** **Antiluce.** Used within the sheep deck kits, folding front panel kits, opening wind deflector kits and the older horsebox range inspection doors.
- 14 P1009D** **Antiluce.** Used on P6/8, TA5/510 and DP inspection doors.
- P1010D** **Antiluce.** Used on the Eventa ramp gate assemblies.

DOOR STOPS & HOLDERS

- 1 P1012F Door Holder Blue (Female).** Used on the current horsebox range to hold the inspection door open, Eventa M Ramp gate and inspection door assemblies.
- 2 P1012M Door Holder (Male).** Used with P1012F to hold the inspection door open on the current horsebox range, HB510XL, HB610, Eventa M Inspection door and livestock deck kits.
- 3 P1012S Door Holder (Female).** Used on the HB510XL & HB610, Livestock deck barriers, CT115 & 136 to secure the rear light brackets & TB Stowable skid kits.
- 4 P1014 Door Stop.** Currently used on the Box Van roller shutter and ramp door kits, back rail assemblies, sheep deck kits and Land Rover canopies, Eventa side step, hinged mesh kits & P5e hard top.
- 5 P10141 Door Stop.** Used on livestock ramp side gates, DP cross divisions & TB dropside & ramp kits.
- 6 P1015 Door Stop.** Used on the TA5G & TA510G cross divisions, P5, P6, P7 & P8e ramps, BV ramp door kits & livestock deck kits.
- 7 CP00463 Door Stop Bracket.** Fitted to the current horsebox range, bolts to the coupling.
- 8 P10151 Top Hat Buffer.** Used on the current Tipper skid carrier kits and Beavertail skid rack kits.

SPACERS & BUSHES

- 9 C70689 Ramp Side Gate Pivot Bush.** Fitted to the floor of the sealed floor livestock trailers.
- 10 C74419 Livestock Deck Pivot Bush.** Fitted to the upper sheep deck for locating the small cross division.
- 11 C75363 Ramp Gate Capping Insert.**
- 12 P1245PK Deck Cleat.** Fitted to the side panel of the current livestock trailer to secure the vents in the open position. Sold in packs of 10.
- 13 P1246 Hinge Pivot Bush.** Used on the ramp installations for the GP, GX, Metric GD range, new and old horsebox range Eventa, HB510XL, HB610, TA5G & TA510G rear ramps.

** Some vehicles present so far insoluble problems when coupled to a trailer with LED lights. This may take the form of the hazard warning lights flashing continuously and there may be other problems too. Many other vehicles perform faultlessly when connected to LED equipped trailers. However, where such problems do occur, these are vehicle problems and Ifor Williams Trailers will not be responsible for their resolution. Owners are strongly advised to make thorough checks with the vehicle manufacturer before buying or specifying LED trailer lights.

Trailers with winches

We recommend that you use only Ifor Williams Trailers supplied winches on our trailers as these are specified to be compatible with the winch brackets. Other makes of winch may not be compatible and any resulting damage to the trailer or bracket may invalidate warranty.

All winch brackets and winches are designed and rated to be used with rolling loads. They are not intended for use with vehicles where the wheels do not freely rotate. Manually operated and electrical winches can be fitted to a number of Ifor Williams Trailers trailer ranges including car transporters; tiltbed trailers; flatbed trailers; tipping trailers; GD trailers and plant trailers.

Some winch designs have an integral bracket permitting direct attachment to the trailer. In other cases a range of winch brackets are available which are model-specific to permit fitment of the winch.

Winch Capacity

Different winch manufacturers specify the capacity of the winch in different ways sometimes making it difficult to make comparisons. Ifor Williams Trailers has converted the winch supplier's information into a standard format taking account of the maximum incline of the ramp/skid or tiltbed attainable with that trailer range.

In the table below the figure in each box is the maximum weight of a rolling load that can be winched onto that trailer/ ramp combination. In many cases the winch capacity exceeds that of the trailer and or ramp/skid.

YOU MUST NEVER EXCEED THE MAXIMUM PAYLOAD OF THE TRAILER OR ITS RAMP/SKID (Whichever is lower).

Refer to the trailer's COC (Certificate of Conformity) for the trailer's payload.

The TB mk 2 was introduced in late 2010, it is identifiable by the round rear lights and the wavy ramps and skids. The TB mk 1 had square/rectangular rear lights.

RAMP, SKID & TAILBOARD KITS

-  **KX62132-21** **Mesh Ramp.** This ramp is the optimal shape to maximise clearance to the splitter of a vehicle during loading. The ramp is all mesh, which permits visibility of the rear tail lights when the ramp is deployed. Supplied with rear pillars. The kit includes gas spring and all fittings. Compatible with the TB mk2.
-  **KX62022** **Removable Skid Kit & Carrier.** Compatible with the TB mk2. Removable steel skids which can be positioned to your required width to suit the vehicle being loaded. Skids are stored in the carrier, accessed from behind the number plate. The option of removable skids offers a more fuel efficient alternative to fixed skids or ramp through reduced drag when towing.
-  **KX62032** **Hinged Mesh Skid kit.** Compatible with the TB mk2. Suitable for users that not require a full width ramp. Fold-out side posts can be deployed if additional width is required when loading.
-  **KX62202-21** **Tailboard.** Drop in tailboard kit. Compatible with the TB mk2.

ACCESSORIES

-  **KX6207-21** **Headboard.** Compatible with the TB mk1 & mk2.
-  **KX6223-21** **Ladder Rack.**
-  **KX6205-21** **Wheel Chock Kit.** For customers who will be predominantly transporting vehicles on their Tiltbed. Wheel chocks prevent the forward movement of the vehicle when being transported on the trailer. Multiple setting positions can be adjusted enabling convenient positioning of the vehicle. This kit cannot be fitted with drop sides. Compatible with a TB mk1 & mk2.
-  **KX6206-40** **Raised Rave Kit.** Compatible with the 4m TB mk1 & mk2. This kit comprises of 2 galvanised steel pressings that bolt to the existing holes on the trailer. They give the user an indication that the tyre of the vehicle being loaded is close to the edge.

TRAILER IDENTIFICATION PLATES – FOR TRAILERS PRODUCED SINCE SEPTEMBER 2012

Your trailer will have two or three identification plates which are typically attached to the right hand side of the drawbar. These plates contain important information including the trailers serial number (also known as VIN number) and its max gross weight.

For trailers produced on or before Sept 2012, there will still be a VIN Plate, which carries the serial number in the same format as the new trailers. (There may not however be a Drawbar approval plate fitted)

STANDARD EC APPROVAL VIN PLATE

1	EC approval number	1
	VIN Number	2
	Gross vehicle weight	3
	Permissible mass on a single axle	4
	Permissible mass on a double axle	5
	Permissible mass on a triple axle	6
	Internal description	7

DRAWBAR APPROVAL PLATE

2	Trailer manufacturer	1
	Trailer model	2
	Drawbar variant code	3
	Maximum gross weight that can be fitted to this model of drawbar	4
	Theoretical horizontal reference force	5
	Max static load	6
	EC approval number	7

DOWN RATED TRAILER WEIGHT VIN PLATE

(Occasionally trailers are down rated (normally if the driver has not got B1 and E) towing entitlements. If it has been downrated this plate will be present.)

3	EC down-rated approval number - Country specific	1
	VIN Number	2
	Gross vehicle weight	3
	Permissible mass on axle 1	4
	Permissible mass on axle 2	5
	Internal description	6

When ordering certain types of spare parts you will need to supply us with the serial number of the trailer. This identifies the age and batch reference of the trailer, which informs us of any changes to product specification around the date of manufacture. If you are ordering spares for more than one trailer, you will need to identify which serial number the parts are intended for.

HOW TO FIND YOUR SERIAL NUMBER

Every trailer we manufacture is fitted with a type plate (plate 2 – Standard EC approval VIN plate), this will have a unique serial number printed on it by multi-dot punching. An example of a standard type plate is shown opposite. All Ifor Williams Trailers serial numbers begin with the prefix SCK. This example is printed with the full 17 digit VIN (Vehicle Identification Number). The last 6 or 7 digits represent the serial number depending on the age and model of your trailer. Some models may be fitted with a slightly smaller plate; however, the serial number will still be present and easily recognisable.

BRAKED TRAILERS

For trailers with 'A Frame' drawbars the plate is located on the outside of the right hand drawbar member. On trailers with adjustable height couplings the plate is located on the right hand section of the supporting structure that the drawbar/coupling unit is clamped to.

UNBRAKED TRAILERS

On P5/6/7e (unbraked) models the plate is fitted to the front panel of the trailer, or is sometimes attached to the drawbar mounting bracket. On BV64e boxvan models the plate is fitted to the right hand side of the rear cross member.

HB403 – SINGLE HORSEBOX

Unlike all other horsebox models, the HB403 has its plates fitted to the outer face on the right hand side directly below the front ramp.

IDENTIFYING COUPLING TYPES

The coupling units fitted to your Ifor Williams trailer may be from one of several different manufacturers, when ordering spares for a coupling or brake linkage it is important to identify the manufacturer and model. Typically an overrun (brake control) coupling unit will be fitted with its own type plate, usually on the top or side of the main shaft housing. The example shown here is from Knott KF13 overrun coupling.

The Ifor Williams Trailers Distributor network maintains a large stock of spares and accessories and they will provide knowledgeable advice and information to assist you with identifying the correct spare part for your requirement.

The UK and Ireland Distributor network is shown overleaf.

For International inquiries, please contact the relevant local distributor via our website, www.iwt.co.uk/distributors

You can also order spares direct from Ifor Williams Trailers by emailing spares@iwt.co.uk or phoning **0845 4082 505**. Please note that heavy or bulky items, marked with the Forklift symbol, cannot be ordered directly from Ifor Williams Trailers Ltd. These items must be ordered through one of our distributors.

Our standard carriage cost is **£9.95*** inc VAT for UK mainland. Parcels weighing more than 20kg or exceeding 120cm in length will incur an additional carriage charge

* Northern Ireland, Irish Republic, Scottish Highlands & Islands, Isle of Man and Channel Islands, carriage prices in request.

When Ordering please note that the following:

Specification

Product design, descriptions, colours, specifications etc. correct at time of going to press. We constantly strive to improve our products, and from time to time this may result in changes to our range or to individual products. Please check that design, description, colours, specifications described in the catalogue are still valid at the time of placing an order. If in doubt as to the specification of your trailer and/or suitability of advertised spares or accessories please visit one of our distributors for advice. Our distributors have extensive product knowledge and will be pleased to offer assistance to customers seeking spare parts.

Availability

If any item ordered has become unobtainable our staff will make every effort to obtain a suitable alternative. However in the case of parts for very old or specially built trailers this may take extra time to process. If the part that you require is not listed or appears to be unavailable please telephone our spares department for advice. In some cases modifications are available which allow alternative parts to be fitted.

CONSUMER TERMS

These conditions apply when you are purchasing Goods from us as a Consumer.

PLEASE NOTE THAT THESE CONDITIONS CONTAIN TERMS WHICH EXCLUDE OR LIMIT OUR LIABILITY TO YOU.

1. DEFINITIONS AND INTERPRETATION

In these terms and conditions the following terms have the following meanings:

"Associate" means, in relation to us, any company that is our holding company, subsidiary or a subsidiary of our holding company and the expressions **"subsidiary"** and **"holding company"** shall have the same meaning as in Sections 736 and 736A of the Companies Act 1985 (as amended from time to time);

"Conditions" means these terms and conditions;

"Consumer" means any natural person who purchases Goods other than in the course of his or her business, trade or profession or for use in his or her business, trade or profession;

"Contract" means any contract for the sale by us and purchase by you of Goods;

"Delivery" means delivery of the Goods to you or, as the case may be, the Goods being ready for collection by you, and **"Deliver"** should be interpreted accordingly;

"Goods" means any goods to be sold and supplied by us to you;

"Price" means all sums payable by you to us for the Goods;

"us", "our" or "we" refers to the seller of Goods under a Contract which may be either Ifor Williams Limited or any of its Associates as named or identified in any acceptance of your order; and

"you" or "your" means the customer buying the Goods from us.

2. OUR CONTRACT WITH YOU

2.1 These are the Conditions on which we supply Goods to you.

2.2 Please ensure you read these Conditions carefully and check the details of your Contract are complete and accurate before you sign the Contract. If you think there is a mistake, please contact us to discuss. Where you do not sign the Contract your order of goods shall constitute an offer to purchase the Goods in accordance with these Conditions. You are responsible for ensuring that the terms of your order and any applicable specification submitted by you are complete and accurate.

2.3 These Conditions will become binding on you and us when we either (i) issue you with a written acceptance of the Contract; or (ii) we deliver the Goods to you. The processing of your payment and acknowledgement of your order does not constitute acceptance of your order.

2.4 This is not a sale by sample. Any showroom models, samples, drawings, descriptive matter or advertising shown to you or produced by us and any descriptions or illustrations contained on our website or in our catalogues or brochures are produced for the sole purpose of giving an approximate idea of the Goods referred to in them. They shall not form part of the Contract nor have any contractual force.

2.5 It is always possible that despite our best efforts, some of the Goods we sell may be incorrectly priced. We will normally check prices as part of our despatch procedures so that, where the Goods' correct price is less than our stated price, we will charge you the lower amount when dispatching the Goods to you. If the Goods' correct price is higher than the price stated on our website or in our catalogue or brochure we will contact you to tell you and ask for your instructions. If the pricing error is obvious and unmistakable and could have reasonably been recognised by you as a mispricing we do not have to provide the Goods to you at the incorrect (lower) price.

2.6 If you request amendments to the Goods ("Bespoke Goods") we will make the amendments according to the instructions you give us. We cannot accept the return of Bespoke Goods if the reason for return is because you provided us with incorrect amendments. This will not affect your legal rights as a consumer in relation to Bespoke Goods that are faulty or not as described.

2.7 We are a company registered in England and Wales. Our company registration number is 01206036 and our address is set out at the start of these conditions. Our registered VAT number is VAT GB162990737

2.8 If you have any questions or if you have any complaints, please contact us. You can contact us by telephoning our customer service team at +44 (0)843 216 7447 or by e-mailing us at customer.care@iwt.co.uk

2.9 If you wish to contact us in writing, or if any clause in these Terms requires you to give us notice in writing (for example, to cancel the contract), you can send this to us by e-mail, by hand, or by pre-paid post to our address set out at the start of these conditions. We will confirm receipt of this by contacting you in writing. If we have to contact you or give you notice in writing, we will do so by e-mail, by hand, or by pre-paid post to the address you provide to us in the order.

3. SECOND-HAND GOODS

In relation to second-hand or used Goods which we sell to you such Goods are sold "as seen". We make no representations and gives no warranties as to the quality, condition, state or description of the Goods, or their fitness or suitability for any purpose. All implied statutory or common law terms, conditions and warranties as to the Goods are excluded to the fullest extent permitted by law. Upon request we will permit you to inspect the Goods for the purpose of assessing whether they are of satisfactory quality or not, you will be deemed to have carried out a reasonable examination of them before the Contract is made, whether or not you have actually taken the opportunity to do so.

4. CANCELLATION

4.1 In the case of contracts made by telephone, mail order, email, facsimile or on the internet you may cancel the Contract by giving us notice in writing at any time on or before the expiry of fourteen days from the day after the date of delivery by us or collection by you of the Goods. Where you exercise this right of cancellation you must promptly return the Goods to us and pay the cost of doing so. Pending your return of the Goods to us, you must take reasonable care of the Goods and retain possession of them.

4.2 If you cancel your Contract pursuant to clause 4.1 we will refund you the price you paid for the Goods. However, please note we are permitted by law to reduce your refund to reflect any reduction in the value of the goods, if this has been caused by your handling them in an unreasonable way or in a way which would not be permitted in a showroom. If we refund you the price paid before we are able to inspect the goods and later discover you have handled them in an unacceptable way, you must pay us an appropriate amount.

4.3 We may have to cancel a Contract before the Goods are delivered, due to an Event Outside Our Control or the unavailability of stock. If this happens:

- we will promptly contact you to let you know;
- If you have made any payment in advance for Goods that have not been delivered we will refund those amounts to you.

5. PRICE AND PAYMENT

5.1 The Price is exclusive of VAT which is payable by you in addition to the Price

5.2 If you pay by credit or debit card we are entitled to charge an additional amount which is limited to the additional charges we will incur.

5.3 Except where payment is made by you at the time of entering into a Contract, you will pay us for the Goods in accordance with any terms we have notified to you before the Contract is made. If we have not provided you with any such notification, the Price will be payable on Delivery.

5.4 Either you or we (as appropriate) will have the right to charge the other interest on any overdue amounts from the date payment falls due until the day immediately prior to the date payment is made (whether before or after judgment) at the rate of 8% above the Bank of England base rate from time to time. Such interest will accrue on a daily basis and be compounded annually.

5.5 If you fail to pay the Price on the date on which payment becomes due we will be entitled (without prejudice to any other right or remedy we may have) to suspend any further Delivery to you under the same or any other Contract until actual payment is made in full.

6. DELIVERY AND RISK

6.1 If we deliver the Goods to you we will charge you for the cost of delivery in addition to the Price and in accordance with our published terms for such costs in force at the time the Contract is made. The costs of delivery will be as told to you during the order process.

6.2 We will use our reasonable endeavours to Deliver the Goods on the date agreed between you and us or, if no date is agreed, within a reasonable time. However, our obligation to deliver the Goods to you is suspended for such period of time during which we are prevented, hindered or delayed in doing so due to unforeseen events or circumstances beyond our reasonable control. When we are no longer prevented, hindered or delayed in making Delivery of any Goods to you then we will Deliver them to you as soon as reasonably possible.

6.3 If we delay Delivery of any Goods (either due to our fault or where our obligation to Deliver is suspended) for a period of 30 days or more then you are entitled by written notice to cancel the Contract in respect of those Goods affected by the delay. However, you may not cancel in respect of any Goods which we Deliver prior to your sending us such notice.

6.4 If the Contract requires you to collect the Goods, the risk of loss or damage to them passes to you on collection. If the Contract requires us to deliver the Goods to you, risk passes to you on handover of the Goods at the agreed delivery address.

7. EVENTS OUTSIDE OUR CONTROL

7.1 We will not be liable or responsible for any failure to perform, or delay in performance of, any of our obligations under these Conditions that is caused by an Event Outside Our Control.

7.2 An "Event Outside Our Control" means any act or event beyond our reasonable control, including without limitation strikes, lock-outs or other industrial action by third parties, civil commotion, riot, invasion, terrorist attack or threat of terrorist attack, war (whether declared or not) or threat or preparation for war, fire, explosion, storm, flood, earthquake, subsidence, epidemic or other natural disaster, or failure of public or private telecommunications networks.

7.3 If an Event Outside Our Control takes place that affects the performance of our obligations under these Conditions:

- we will contact you as soon as reasonably possible to notify you; and
- our obligations under these Conditions will be suspended and the time for performance of our obligations will be extended for the duration of the Event Outside Our Control. Where the Event Outside Our Control affects Our delivery of Goods to you, We will arrange a new delivery date with you after the Event Outside Our Control is over.

7.4 You may cancel the contract if an Event Outside Our Control takes place and you no longer wish us to provide the Goods.

8. IF THE GOODS ARE FAULTY

8.1 As a consumer, you have legal rights in relation to Goods that are faulty or not as described. Advice about your legal rights is available from your local Citizens' Advice Bureau or Trading Standards office. Nothing in these Terms will affect these legal rights.

8.2 We warrant that on delivery and for a period of 12 months from delivery, the Goods shall be free from material defects. However, this warranty does not apply in the circumstances described in clause 8.3.

8.3 This warranty does not apply to any defect in the Goods arising from:

- fair wear and tear;
- wilful damage, abnormal storage or working conditions, accident;
- negligence by you or by any third party;
- if you fail to operate or use the Goods in accordance with the user instructions;
- any alteration or repair by you or by a third party who is not one of our authorised repairers; and
- any specification provided by you.

8.4 This warranty is in addition to, and does not affect, your legal rights in relation to the Goods that are faulty or not as described.

8.5 During the warranty period we will (at our option) do any of the following: refund all or any of the Price, repair or replace the Goods or any part of them (or procure such repair or replacement) to the extent that the Goods or part do not comply with the Contract as at the date of Delivery.

8.6 To take advantage of the Warranty you or any subsequent owner of the Goods in question must notify us at the address shown in the invoice promptly and in any event within twenty-eight (28) days of the relevant problem being discovered and permit us to inspect the Goods. If we do not receive notice of the problem within this timeframe then we will have no obligations under the warranty in respect of that problem.

8.7 Following notification of such problem we will use our reasonable efforts to inspect and/or repair and/or replace the relevant Goods or part within a reasonable time. If you arrange for a third party to carry out any repairs or work (subject to the exception just mentioned) then we will have no further obligations to repair or replace in respect of the applicable problem under this Warranty unless you have informed us in advance and we have consented to the work being done.

9. OWNERSHIP OF GOODS

Ownership of and title to the Goods passes to you only when we receive payment in full in cleared funds of the Price together with any VAT, delivery and other charges under the Contract.

10. NOTIFICATION OF PROBLEMS

If any of the Goods are faulty or damaged then you must notify us as soon as practicable after the fault or damage is discovered. Your notice must describe the fault or damage in question.

11. LIMITATION OF LIABILITY

11.1 We will not be liable for any loss or damage caused by any breach of the Contract by us except to the extent that such loss or damage is a reasonably foreseeable consequence of the breach. What is foreseeable is determined at the time the Contract is entered into. However, this limitation on our liability does not apply to personal injury or death caused by our negligence or to fraudulent representations, acts or omissions.

11.2 We are supplying the Goods on the basis that they are for domestic and private use only and will not be used for any commercial, business or re-sale purpose; as such, we shall have no liability to you for any loss of profit, loss of business, business interruption or loss of business opportunity.

11.3 We do not exclude or limit in any way our liability for:

- death or personal injury caused by our negligence or the negligence of our employees, agents or subcontractors;
- fraud or fraudulent misrepresentation;
- breach of the terms implied by section 12 of the Sale of Goods Act 1979 (title and quiet possession);
- breach of the terms implied by sections 13,14 and 15 of the Sale of Goods Act 1979 (description, satisfactory quality, fitness for purpose and samples); and
- defective products under the Consumer Protection Act 1987.

12. THIRD PARTY RIGHTS

No term of the Contract will be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person that is not a party to the Contract.

13. LAW

The Contract will be governed by and construed in accordance with the laws of England and you and we submit to the non-exclusive jurisdiction of the English courts.

TERMS AND CONDITIONS OF SALE

BUSINESS SALES

These conditions apply when you are purchasing Goods from us other than as a Consumer.

1. DEFINITIONS AND INTERPRETATION

1.1 In these terms and conditions the following terms have the following meanings:

“**Associate**” means, in relation to us, any company that is our holding company, subsidiary or a subsidiary of our holding company and the expressions “**subsidiary**” and “**holding company**” shall have the same meaning as in Sections 736 and 736A of the Companies Act 1985 (as amended from time to time);

“**Authorised Distributor**” means a distributor who has been authorised by us or any Associate to sell, maintain and repair the Goods;

“**Conditions**” means these terms and conditions for the sale and purchase of Goods;

“**Consumer**” means any natural person who purchases Goods other than in the course of his or her business, trade or profession or for use in their business, trade or profession;

“**Contract**” means any contract for the sale by us and purchase by you of Goods;

“**Delivery**” means delivery of the Goods by us to the applicable place of destination or, as the case may be, the Goods being ready for collection by you;

“**Goods**” means any goods to be supplied by us to you;

“**Price**” means all sums payable by you to us for the Goods;

“**us**”, “**our**” or “**we**” refers to the seller of the Goods under a Contract which is Ifor Williams Trailers Limited or any of its Associates which is named or identified as seller in any acceptance of your order or otherwise in the course of formation of the Contract in question; and

“**Trailer**” means Goods comprising any trailer, transporter, horsebox container or pick-up canopies or similar, but excluding spare parts and accessories, which are manufactured or assembled in volume by us or any of our Associates or in accordance with specifications and production standards provided by us or any of our Associates;

“**you**” or “**your**” refers to the customer buying the Goods from us.

1.2 In these Conditions, unless otherwise stated:

- the singular includes the plural and vice versa;
- cognate expressions derived from the above definitions shall be construed accordingly; and
- “in writing” includes emails.

1.3 Where you are an Authorised Distributor the Contract is also subject to the terms of your distributor agreement.

2 APPLICATION OF CONDITIONS AND FORMATION OF CONTRACT

2.1 These Conditions apply to all Contracts where you are purchasing other than as a Consumer and exclude and supersede all other terms and conditions (including without limitation any terms or conditions which you purport to apply under any purchase order, confirmation of order or other document or through any course of dealing).

2.2 In the case of your order for a Trailer, the Contract between you and us is formed only when we allocate a serial number for a Trailer so ordered on our electronic order processing system and, in the case of any other Goods, only when we record your order as a confirmed order on that system.

2.3 The images of the Goods on our website or in our catalogue or brochure are for illustrative purposes only. Your Goods may vary slightly from those images.

2.4 It is always possible that despite our best efforts, some of the Goods we sell may be incorrectly priced. We will normally check prices as part of our despatch procedures so that, where the Goods’ correct price is less than our stated price, we will charge you the lower amount when dispatching the Goods to you. If the Goods’ correct price is higher than the price stated on our website or in our catalogue or brochure we will contact you to tell you and for your instructions. If the pricing error is obvious and unmistakable and could have reasonably been recognised by you as a mispricing we do not have to provide the Goods to you at the incorrect (lower) price.

3 PRICE AND PAYMENT

3.1 The Price is exclusive of VAT which is payable by you in addition to the Price.

3.2 Except where payment is made by you immediately on entering into the Contract, you will pay us for the Goods in accordance with any terms we have notified to you before the Contract is made. If we have not provided you with any such notification, the Price will be payable not later than the date of Delivery.

3.3 Unless we expressly agree otherwise, you must pay all invoices by BACS direct payment or by such other means of electronic funds transfer as we approve to such bank account as we have notified or may notify to you for this purpose from time to time.

3.4 Without prejudice to any other rights or remedies to which we may be entitled, we will have the right to charge you interest on any overdue amounts from the date payment falls due until the day immediately prior to the date payment is made (whether before or after judgment) at the rate of 8% above the Bank of England base lending rate. Such interest will accrue on a daily basis and be compounded annually.

3.5 If you fail to pay the Price on the date on which payment becomes due we and our Associates will be entitled (in addition to any other remedies we may have) to suspend any further Delivery to you under the Contract in question or any other contract until actual payment is made in full.

4 DELIVERY AND RISK

4.1 We will deliver the Goods to you to an agreed place of destination.

4.2 We will charge you for the cost of delivery in addition to the Price (if not included within the price) in accordance with our published terms for such costs in force when the Contract is made.

4.3 Subject to Condition 4.4, risk passes to you on Delivery.

4.4 Where the agreed place of destination is your premises, you must ensure that safe, adequate and accessible unloading and discharging facilities (including manual labour) and arrangements are available at the delivery address for unloading the Goods upon their arrival and, without prejudice to the generality of the foregoing, must ensure that such unloading and discharging facilities and arrangements comply with any applicable health and safety legislation, rules and/or regulations in force from time to time. You will be responsible for and bear the risk of any damage caused to the Goods or the property of any person and/or any injury suffered by any person during off-loading of the Goods at that place.

4.5 If we delay in delivering any Goods to you for a period of not less than 30 days then following expiry of that period you are entitled by not less than 5 days’ written notice to cancel the Contract in respect of those Goods affected by the delay, but you are not otherwise entitled to cancel for delay. However, you may not cancel in respect of any Goods which we Deliver prior to your sending us such notice or the expiry of such notice.

4.6 We shall not be liable to you for any loss caused by late Delivery of the Goods.

4.7 Immediately upon the Goods being Delivered to you, you must carry out with reasonable care and diligence a visual examination thereof and promptly report to us any damage, defect or failure to comply with the Contract which is disclosed by such examination. Such report must be made so as to be received by us on the same day on which Delivery is made. Except to the extent of such report, the Goods will be deemed free from such damage, defect or lack of compliance as is or ought reasonably to be apparent upon examination being carried out in accordance with this Condition.

5 OWNERSHIP OF THE GOODS

5.1 Ownership of the Goods does not pass to you unless and until we receive payment in full in cleared funds of the Price together with any VAT, delivery and other charges under the Contract and of any other sums which are due by you under any other contract between us and you. We may maintain an action for the Price of Goods supplied to you notwithstanding that the property in and title to them has not passed to you.

5.2 Until title to the Goods passes to you, you:

- must at your expense insure the Goods for their full replacement value against all usual risks;
- must keep the Goods safe and in good condition, stored separately and clearly identifiable as our property; and
- must not sell or part with possession or control of the Goods other than a sale of them in good faith and in the ordinary course of your business. Your right to possession of the Goods will terminate immediately on notice from us which we may serve if you are in default under the Contract or on termination of the Contract by us or automatically if any of the events referred to in Condition 10 occurs in respect of you.

5.3 If we lawfully terminate your right to possession of the Goods then, in addition to any other remedies we may have, we or any person authorised by us will have the right to enter upon any premises occupied by you where the Goods are or may be stored in order to inspect the Goods or take possession of them and you hereby irrevocably authorise us and/or our authorised representative to enter upon your premises for such purposes.

6 WARRANTY

6.1 Providing the Goods are sold as new, the Supplier warrants that on delivery, and for a period of 12 months from the date of delivery (“warranty period” except to the extent the Customer is an Authorised Distributor in which case the “warranty period” shall have the meaning given in clause 6.7), then the Goods shall:

- conform in all material respects with the description given for them by the Supplier; and
- be free from material defects in design, material and workmanship.

6.2 Subject to clause 6.3, if:

- the Customer gives notice in writing to the Supplier during the warranty period within seven (7) days of discovery that some or all of the Goods do not comply with the warranty set out in clause 6.1;
- the Supplier is given a reasonable opportunity of examining such Goods; and
- the Customer (if asked to do so by the Supplier) returns such Goods to the Supplier’s place of business at the Customer’s cost, the Supplier shall, at its option, repair or replace the defective Goods, or refund the price of the defective Goods in full.

6.3 The Supplier shall not be liable for Goods’ failure to comply with the warranty set out in clause 6.1 in any of the following events:

- the Customer fails to notify the Supplier of the defect within seven (7) days of its discovery;
- the Customer makes any further use of such Goods after giving notice in accordance with clause 6.2;
- the defect arises because the Customer failed to follow the Supplier’s oral or written instructions as to the storage, commissioning, installation, use and maintenance of the Goods or (if there are none) good trade practice regarding the same;
- the defect arises as a result of the Supplier following any drawing, design or Specification supplied by the Customer;
- the Customer alters or repairs such Goods without the written consent of the Supplier;
- the defect arises as a result of fair wear and tear, wilful damage, negligence, or abnormal storage or working conditions; or
- the Goods differ from their description as a result of changes made to ensure they comply with applicable statutory or regulatory requirements.

6.4 Except as provided in this clause 6.4, the Supplier shall have no liability to the Customer in respect of the Goods’ failure to comply with the warranty set out in clause 6.1.

6.5 The terms implied by sections 13 to 15 of the Sale of Goods Act 1979 are, to the fullest extent permitted by law, excluded from the Contract.

6.6 These Conditions shall apply to any repaired or replacement Goods supplied by the Supplier.

6.7 The warranty period in the case of purchases by Authorised Distributors shall be the period commencing on the date of Delivery and which ends on the earlier of (i) the expiry of twelve (12) months from the date of delivery to the customer who is the end user of the Goods for their intended purpose upon resale of the Goods to that customer by the Authorised Distributor or any subsequent intermediary or (ii) the expiry of eighteen (18) months commencing on the date of Delivery.

6.8 Unless we have expressly agreed otherwise with you in writing, we do not warrant that the Goods comply with the legal requirements as to quality or technical standards and/or performance of any jurisdiction other than those type D1 and type O2 trailers which comply with the relevant European Whole Vehicle Type Approval regulations as applied in the United Kingdom to the extent that those legal requirements would otherwise impose obligations on us under the Contract which are different, more strict or more onerous than those imposed on us by reference to the legal requirements of the United Kingdom and/or the Republic of Ireland as at the date of Delivery. Accordingly, we will not be liable for any loss or damage caused to you or any other person due to the Goods not complying to that extent with such legal requirements.

7 SECOND-HAND GOODS

In relation to second-hand or used Goods which we sell to you such Goods are sold “as seen”. The Supplier makes no representations and gives no warranties as to the quality, condition, state or description of the Goods, or their fitness or suitability for any purpose. All implied statutory or common law terms, conditions and warranties as to the Goods are excluded to the fullest extent permitted by law. Upon request we will permit you to inspect the Goods for the purpose of assessing whether they are of satisfactory quality or not, you will be deemed to have carried out a reasonable examination of them before the Contract is made, whether or not you have actually taken the opportunity to do so.

8 EXCLUSIONS AND LIMITATION OF LIABILITY

8.1 Nothing in these Conditions excludes or limits our liability:

- for death or personal injury caused by our negligence or the negligence of any our employees while acting in the course of their employment;
- for any matter which it would be illegal for us to exclude or attempt to exclude our liability; or
- fraud or fraudulent misrepresentation; or
- breach of the terms implied by section 12 of the Sale of Goods Act 1979; and
- breach of section 2 of the Consumer Protection Act 1987;

8.2 Subject to clause 8.1

- our total liability in contract, tort (including without limitation negligence or breach of statutory duty), misrepresentation, restitution or otherwise, arising out of or in connection with our performance of or our failure to perform the Contract will be limited to the Price; and
- we shall not under any circumstances whatever be liable, whether in contract, tort (including negligence) or restitution, or for breach of statutory duty or misrepresentation, or otherwise, for any loss of profit, or loss of goodwill, or loss of business, or loss of business opportunity, or loss of anticipated saving, or loss or corruption of data or information; or special, indirect or consequential damage

9 FORCE MAJEURE

If we are prevented, hindered or delayed in performing any of our obligations under the Contract by reason of any unforeseen event or circumstance beyond our reasonable control (including for example and without limitation non-availability of materials or necessary inputs from our suppliers), such failure will not be a breach of our obligations and we will be entitled to suspend performance of those obligations for such period of time during which we are prevented, hindered or delayed in doing so. When we are no longer prevented, hindered or delayed then we will resume performance of our obligations so far as reasonably practicable at that time and as soon as reasonably possible.

10 TERMINATION

Without prejudice to any other rights or remedies which we may have, if you:

- materially breach any of the provisions of the Contract and, where the breach is remediable, fail to remedy it within 5 working days of receipt of a notice from us requiring its remediation;
- fail to pay the Price or any other sums due to us by the due date for payment and fail to remedy such non-payment within 10 working days of receipt of a notice from us requiring such payment;
- are a sole trader, partnership or company and you (or any partner if a partnership) become unable to pay your debts (within the meaning of Section 123 of the Insolvency Act 1986 or Section 268 of the Insolvency Act 1986 as the case may be) or are liquidated, wound up or have a petition for winding up presented against you or pass a resolution for winding up or a petition for the appointment of an administrator is presented against you or have any receiver or administrative receiver appointed in respect of all or any of your undertaking or assets or are subject to an interim order or commit any act of bankruptcy or make any arrangement or otherwise compound with your creditors;
- suffer or allow any execution, whether legal or equitable, to be levied on its property or obtained against it; or
- have entered into any other contract or agreement with us and a right of termination in relation to that contract or agreement has arisen including without limitation where you are an Authorised Distributor and have entered into a distribution agreement with us, we will have the right immediately to terminate the Contract on giving you notice of such termination in writing.

11 GENERAL

11.1 Subject to Condition 1.3, the Contract constitutes the entire agreement between you and us and cancels and supersedes any and all previous agreements (whether oral or written, express or implied) between you and us relating to the subject matter of the Contract. Except for the express written terms of the Contract, you and we acknowledge and agree that in entering into the Contract neither you nor we have relied on or been induced by any warranty, statement or representation of the other or any other person relating to the Contract. Nothing in the Contract will affect any liability of you or us for fraudulent misrepresentation.

11.2 If any provision of the Contract is found by any court, tribunal or administrative body of competent jurisdiction to be wholly or partly illegal, invalid, void, voidable, unenforceable or unreasonably it will to the extent of such illegality, invalidity, voidness, voidability, unenforceability or unreasonableness be deemed severable and the remaining provisions of the Contract and the remainder of such provision will continue in full force and effect.

11.3 Failure or delay by us in enforcing or partially enforcing any provision of the Contract will not be construed as a waiver of any of our rights under the Contract.

11.4 No term of the Contract will be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person that is not a party to the Contract.

11.5 If you sell or dispose of the Goods you can assign the terms of the Warranty provided that the sale is on an arm’s length basis and is a bona fide transaction. Except as provided in this Condition 11.5 you are not entitled to assign all or any part of this Contract.

12 LAW

The Contract will be governed by and construed in accordance with the laws of England and you and we submit to the non-exclusive jurisdiction of the English courts.
